

Kudos to Steve Landis for study and identification of this white morph subadult Reddish Egret. Victor Fazio III photographed the bird on 03 Sep in company with a Snowy Egret, another unusual bird for northern Delaware.

Instructions for Contributors

The Ohio Cardinal would not exist without contributions from Ohio birders. We solicit sightings, notes on unusual observations, in-depth scientific articles, historical accounts, book reviews, essays, artwork, and photographs related to Ohio and its birdlife. Please refer to our website (www.ohiobirds.org/publications/cardinal/aboutcardinal.php) for general guidelines on style and formatting.

Reports of bird sightings for each season are requested and should be submitted directly, by email or postal mail to:
