

RECENT PUBLICATIONS ON WADERS

The last list appeared in Bulletin 10. I would like to thank those people who pointed out omissions and repeat my request for readers to let me know of any references which they think ought to be included (especially those in obscure or local publications). Readers are also referred to the abstracts in Ibis, Auk and Bird-Banding amongst others and to the lists of titles in IWRB Bulletin.

- ANDERSEN-HARILD, P. & BLOCH, D. 1973 Birds killed by overhead wires in some localities in Denmark. Dansk. Orn. Foren. Tidsskr. 67: 15-23 (Danish with Eng. summary)
