FIELD RECORDS: NOVEMBER 1981	45

POSTAL RATES INCREASE

On January 10, the Postal Service put into effect increases in the second-class rates charged to magazines and newspapers that may increase the mailing costs of BIRD OBSERVER as much as five-fold.

To offset these rate hikes, we are campaigning to raise the total circulation of the magazine. The actual unit cost of printing and mailing each copy decreases as the total number increases.

You can help by encouraging fellow birders to support and to subscribe to BIRD OBSERVER.

Remember gift subscriptions make excellent presents for occasions throughout the year. With each gift subscription, BIRD OBSERVER will send a special card notifying the recipient. Readers also might want to consider donating a gift subscription to their community library.
