### NORTH CAROLINA GULF STREAM PELAGIC TRIPS

On May 30, August 21, September 4, September 5, and October 10, there will be pelagic birding trips into the Gulf Stream off North Carolina's Outer Banks. These trips, which leave from Hatteras, are famous lately because of Black-capped Petrel sightings as well as the expected specialities such as Audubon's Shearwater and Bridled Tern. For complete information on the trips, please contact the leaders: Robert L. Ake (615 Carolina Ave., Norfolk, VA 23508; phone 804-625-6082, evenings to 11 p.m.) or Paul G. DuMont (4114 Fessenden Street, NW, Washington, D.C. 20016; phone 202-363-8994, evenings to 11 p.m.) The trips are \$39 per person per trip.
