

Bird Observer

VOLUME 31, NUMBER 2

APRIL 2003

Large, round
gorget
feathers
barely
visible here
(v. obvious from
front)

Crown + Back
Green - not as
bright or olivey
as Ruby-throat -
duller toward wing

← wings appear dark
here in dull light
(often appear paler)

Pale Olive Back
+ Rump

Bright white
spots on tail
feather tips
bordered in
black

Rufous at base
of tail barely
visible here,
but obvious
when bird shows
tail at the
feeder

Under tail coverts
pale buffy
orange

Strong white
bar extends
backward +
downward
from eye,
bordered below
by dark
(auricular)

pattern very
strong and
obvious at
times, other
times very
faint

Bill
slightly
curved

Sitting in top
bare branches of
Eucalyptus Bush
