TIME FOR THE
SUPERBOWL OF BIRDING II

I'm worth 3 points
this year!

Saturday, January 29, 2005
Snow date: Sunday, January 30
5 a.m. to 5 p.m.

Winter birding in northeastern Massachusetts and southeastern New Hampshire is great! Last year, 25 teams tallied 125 species of birds in Superbowl I. The challenge is renewed this year, with more categories, more prizes, and more fun! *The Superbowl of Birding* is a unique competition to find birds and earn the greatest number of points based on the rarity of the species recorded. **The Joppa Cup** will be awarded to the team that collects the most points. Strategy and planning will be essential in order to win this competition.

Can you put together a team that can compete with the best birders in the area? Are you ready for prime time?

Twenty Years of Bird Art

A perfect gift for the holidays . . .

Since 1986 the cover of *Bird Observer* has featured original black-and-white art from some of the top artists in the field, including Paul Donahue, Charlie Harper, David Allen Sibley, John Sill, Barry Van Dusen, Julie Zickefoose, and 16 others.

Sketches of New England Birds is a compendium of this collection, featuring 100 different species, each with accompanying text by William E. Davis, Jr. Along with each illustration there is a brief account describing the bird, its breeding biology, behavior, range, and conservation status.

This handsome book, with its color cover showing Ikki Matsumoto's bold silkscreen of a Double-crested Cormorant, is the ideal gift for the birder in your family.
