MEXICAN BIRD-FINDING GUIDEBOOK UP-DATED

FINDING BIRDS IN MEXICO

ERNEST P. EDWARDS, 1968

Still the standard guide to bird-finding in Mexico, and the only one which covers all regions of the country. With an ecological and geographic approach, it tells how and where to find birds in all parts of Mexico. The specific habitats and interesting bird-finding locations around 66 major localities are discussed in detail, with lists of birds to be expected in each place.

290 pp., 8 maps, 15 plates (4 in color). Cloth.

NOW
— UP-DATED —
BY THE

1976 SUPPLEMENT

(to Finding Birds in Mexico)
BY THE
ERNEST P. EDWARDS, 1976

Completely revised and up-dated write-ups of all Northern Atlantic Lowlands localities and Yucatan Peninsula localities from the 1968 book, plus detailed write-ups of 14 new and exciting bird-finding areas. Also much new bird-finding information about the other localities covered in the 1968 book, for a new total coverage of 80 localities from all regions of Mexico.

134 pp., 6 maps. Paper. (Sewed).

The two books Sold as a unit — \$8.00

Also for bird-finding and bird identification in the tropics:

A Field Guide to the Birds of Mexico (paper), E. P. Edwards, 1972. \$8.00
