

B I R D      C A L E N D A R

12 th season – 1916.

University students and all other citizens interested in B i r d s are invited to send in Their Records of new Arrivals to the Calendar, which will b e pulbished during the coming spring.

The names of all migratory or resident Birds, seen or heard since January 1, 1916, when certainly identified, will be welcomed. The name, date, place, and approximate number of individuals seen should be given. Instructors at the Biological Laboratory will be glad to receive these reports, and give any information regarding the study of birds, in their power, Students at the College for Women may hand their records to Professor Hulme.
