State College, Pa.

## Editor's Note:

This is my first attempt at editing a publication. You will be doing me a real favor if you call any mistakes, however great or trivial, to my attention. Your criticisms of form and content are also invited. They are essential if the high standards set by our past Editors are to be maintained or, hopefully, exceeded. It is my intent to call upon most of you at one time or another for a contribution to the News. You may be assured that each item submitted will be carefully considered and acknowledged, even though space may not permit its prompt publication.

As its name implies, the principal purpose of the News is to keep the EBBA membership advised of the latest developments in banding, particularly when they represent the results of efforts by members. Certain items of personal news are also appropriate at times since we are all interested in the welfare of our fellow banders. In this connection we are considering the publication of short biographies of new members as they join the Association and of some of our more active older members. Since news to be news must be timely, we plan to continue publication on a monthly basis.
