EAGLE LECTURES

Charles L. Broley, EBBA member, returns north from his Florida winter quarters for banding Bald Eagles and has consented to relate to bird groups his many interesting experiences and show his colored movies of eagles and their young. Our members are warmly invited and those interested may write the club officers listed as to the place of meeting. The present itinerary follows:

- April 9--Milledgeville, Ga., Miss H.C. Smith, 131 North Columbia Street, Milldgv.
- April 12-Charleston, S.C., Harold S. Peters, 54 Folly Road, Charlestown.
- April 14-Southern Pines, N.C., Mrs. F. H. Robinson, Southern Pines.
- April 15-Greensboro, N.C., Mrs. H. L. Medford, Box 1411, Greensboro.
- April 19-Cumberland, W. Va., Mrs. Gilbert V. Miller, Spring Gap, Md.
- April 20-Pittsburgh, Pa., Alex Hardie, 1215 Oliver Bldg., Pittsburgh 22.
- April 24-Rochester, N.Y., Allen S. Klonick, 828 Grosvenor, Road, Rochester, 10.

Another Hawk Experience: On January 2nd, one of our neighbors was driving along the Chester Road in Randolph Township, N. J., and suddenly in the path of his car appeared what looked to him like a ball of feathers, but the thing was in motion. He stopped the car and as he got out he noticed that it was a copper's hawk trying to hold on to a ruffed grouse. The hawk, in the excitement of seeing a human being so close at hand, became frightened and released his grip, whereupon the neighbor caught the grouse, its wing slightly injured in the struggle. The grouse was brought to our station for banding and nursing back to health. Six days later the grouse was released in good grouse territory.

...Mrs. Marie DuMont, 311 Pompton Turnpike, Pequannock, N.J.
