

## BACK ISSUES WANTED

It is gratifying to report that several college libraries are trying to acquire complete files of EBBA NEWS, but the stock on hand goes back only through 1951. If any member has complete volumes of earlier years which he would like to sell or give to the Association, the Editor would appreciate hearing from him. Also, single copies of the March-April 1954 issue are desired since this issue, through error, was not printed in adequate number. Can you help us?

## AN IMPORTANT REQUEST

It is planned to present the full membership roll in the March-April issue of EBBA NEWS, so the Editor requests that if a member does not like the way he is listed in the last directory (March-April 1953) or, in the case of newer members, the way in which their membership has been announced in EBBA NEWS, he should notify the Editor. Deadline will be March 1.

## QUITE A BANDING!

Dr. Paul H. Fluck, Lambertville, New Jersey, physician, well-known author of many articles in national magazines, and operator of the bird banding station at Washington Crossing Park near New Hope, Pennsylvania, trapped and banded the former Jeanne Pittman, EBBA member, and bandar in her own right. Our very best wishes to the banding team of Dr. and Mrs. Fluck!
