

HOW TO USE 1 Frances Brierly, of Adams, Mass., writes: "We have been
POTTER TRAP using one single-cell Potter trap alone on the feeding
shelf in bad weather, and in three weeks have caught
over 200 Purple Finches and almost 150 Evening Grosbeaks
(Many more of each than we even knew were in the neighborhood) most
of them in that one trap. Until the weather improves, the single-cell
Potter seems to be the best for our needs."
