BACK-ISSUES: EBBA has an embarrassing problem. It seems that although several members have every copy of every issue of EBBA NUS and EBBA NEWS ever issued, EBBA itself does not. Further, we really do not have enough of the pre-1953 issues which can be used as trading material to obtain other badly wanted issues.

To correct this serious situation there will be a moratorium on the sale of back issues. During this period, we are actively seeking persons willing to donate extra copies or whole volumes to EBBA. We wish to establish two complete sets to be kept as master files. One, will be at my home, the other will be at the New Jersey State Museum in Trenton, N.J. After this period is over I will entertain applications to have Xerox copies made of issues other members are lacking to some extent, and this will be at your expense at a rate of 25¢ per page which includes mailing. Besides the two master files we will, of course, need several additional copies to be used for retail. Details will be available at a later time.

We are, in particular, interested in donations of Volume 1 (1938) thru Volume 17 (1954) but will also gratefully accept later issues.

Sales of back-issues of Volume 31 (1968) to the present will go on as usual. Rates are as follows: \$1.00 east of Mississippi; \$1.25 west of same. See next page for rates to authors.
