

BIBLIOGRAPHY OF ARTICLES APPEARING IN EBBA NEWS ON BIRDS OF PREY
By Frederick S. Schaeffer, Editor

During the last two years, several people have inquired if we have an up-to-date bibliography on raptors. Only now have I gotten around to making one up. It appears below. Please note however, that this bibliography only goes back through 1960 and covers EBBA News Volumes 23 through 34(1971).

Many of the issues in which these papers appear, are no longer available. To overcome this problem, I've listed the addresses of the authors (19) at the end of the bibliography.

We would be very grateful if those who are fortunate to possess complete sets of EBBA News and its forerunner EBBA Nus, could help compile additional bibliographies on other species or bird families. Anyone wishing to do so, should check with me so that we can avoid duplication of effort by all who are willing to volunteer. If many pitch in, this chore would be far less difficult than it would be for one person.
