#### CORRIGENDUM

*We apologize to Mrs. James R. Downs for omitting her from the "American Banding Directory". From correspondence it is apparent that she never received the questionnaire, which was mailed to all members on the rolls in fiscal year 1974! Unfortunately, this is not an isolated incident (which I why I'm lead to believe this was not EBBA's doing); each mailing, dozens of magazines never get to the members because of our efficient postal system (USPS) and their handling of third class bulk mail.*

*Let me assure everyone that Betty Downs is a knowledgeable bander, a good friend and a faithful contributor to many organizations. She has recently retired from the job of Treasurer for NEBBA, a job she has held for dozens of years, longer than I can remember. She has been an EBBA member almost as long and she has had a very positive influence on both organizations. She holds memberships in all leading banding and ornithological organizations. Betty resides in South Londonderry, Vermont (05155). If EBBA forgot to mail her the questionnaire, I can only state that it was done so inadvertently and offer our apologies.*
