

### *A Note of Thanks*

After successfully guiding our fledgling journal through its most difficult times, the early volumes, Dr. Henry M. Stevenson has turned over the reins of editorship in order to devote his energies full time to the updating of the Florida state bird book. We can all thank Dr. Stevenson for his service to the Florida Ornithological Society by going through our field notes, banding records and photography files for any important information on Florida birds, and making it available by publication in the *Florida Field Naturalist*. — *The Editor*.
