

## Fly Catchers and Water Birds.

(TO BE ISSUED SHORTLY.)

### PART II.

# NEW ENGLAND BIRD LIFE,

Being a Manual of New England Ornithology.

Revised and edited from the manuscript of Winfrid A. Stearns, member of the Nuttall Ornithological Club, etc. By DR. ELLIOTT COUES, U. S. A., Member of the Academy, etc. Illustrated, \$2.50 (*completing the work*).

This volume, which is now passing through the press, is devoted exclusively to the *Muscicapidae* or FLY CATCHERS and the various and numerous species of WATER-BIRDS. Like Part I of the same work, this volume is the most complete cyclopaedia of the subject, and the name of the editor is a sufficient guarantee that his task has been conscientiously and carefully carried forward.

The volume will be uniform in size and price with PART FIRST already published, which treats of the *Oscines*, or SINGING BIRDS, and which has elicited the heartiest commendation from all sides. We submit the following:—

"The work has been done so thoroughly that in point of completeness it is almost perfect; so consistently that but few points are open to criticism; so concisely that 138 species are treated in 270 8vo pages, and the arrangement of the whole is masterly. Gracefully turned descriptive passages and sparkling bits of commentary everywhere enliven the subject, as the brighter colors of an old piece of tapestry set off its more sombre background."—*Bulletin of the Nuttall Ornithological Club*.

"Its method and scope are all that could be desired in a general scientific treatise, and it fills a place hitherto unoccupied."—*Boston Traveller*.

"Those who are familiar with the Editor's felicitous style, as displayed especially in his 'Birds of the North-west' and 'Birds of the Colorado Valley,' will not fail to recognize his touches on nearly every page, or his influence on the general execution of the work."—*N. Y. Nation*.

"It is prepared by acknowledged authority, and is practical and popular rather than exhaustive. It is just the book to take down from one's library shelf in answer to the question 'What bird is that?' It is just the book to give a twelve-year old boy when he begins to be curious about birds. It is just the book to go into a school reference library."—*N. Y. Christian Union*.

Sold by booksellers, or sent by mail postpaid on receipt of price.

Send for special circulars, gratis.

LEE & SHEPARD, Publishers, Boston.

## WANTED.

The Nuttall Ornithological Club is much in need of copies of Vol. I, No. 1 (April 1876), and Vol. II, No. 1 (January 1877), of this Bulletin. Any one having a copy of either of these numbers in good preservation which he can spare, will confer a favor by mailing it to CHARLES F. BATCHELDER, Cambridge, Mass., and will receive fifty cents by return mail.

TRANSACTIONS  
OF THE
