

Email 2: "The property is southwest of Lawrenceburg in Anderson County, Kentucky. GPS coordinates for the capture site are 37 57' 04.0" N, 85 02' 23.0" W. It'll be really hard to see in the field, but the outer two rectrices were plucked for a title chronology study."

A banded Henslow's sparrow *Ammodramus henslowii*, photographed at the VOA Park in Butler County 16 June 2005 by William Hull.

The polyandrous female spotted sandpiper lays up to five clutches of eggs for her mates to care for. This result, photographed 16 July by Brian Zwiebel at Pickerel Ck WA, is later than most.
