

### CORRIGENDUM

In "Current Status and Distribution of the Black-bellied Whistling Duck (*Dendrocygna autumnalis*) in Georgia", Vol. 77(3-4), p. 82 and Fig. 1, Thomas County was incorrectly included as one of 10 counties with documented BBWD breeding. A photograph, which was used to compile the list, showing a BBWD brood was incorrectly labeled as "Thomas County" when in fact the photograph was taken in Brooks County. Therefore, there are 9 counties in Georgia in which BBWD breeding has been documented.
