NEEDED:
The editors of ERBA NEWS are trying to locate
a dealer where our members can obtain Mosqui-
too Head Nets. These nets come in various mo-
da. To be suitable for banding purposes,
they have to be the "drastring type" (prefera-
ably elastic) and they should have rigid dir-
cular bands (at least one) to hold the net away
from the face in normal use. We have herefo-
re used either French or American Army Sur-
plus headnets (Model M1944, US Army) but ap-
parently the supply has become exceedingly scarce.
If anyone knows where the right headnets can be
obtained - PLEASE CONTACT THE EDITOR. Thanks.
