## GENERAL NOTES.

**Black Guillemot in Connecticut.**—Through the kindness of Mr. Gurdon Trumbull, I received in the flesh a male *Cepphus grylle* taken at Stony Creek, Conn., in December, 1887. So far as I know there is no previous record of this species for the State.—JOHN H. SAGE, *Portland, Conn.*

**The Widgeon (*Anas penelope*) near Baltimore, Md.**—February 25, 1890, on the property of The Carroll's Island Club, Baltimore County, Md., Mr. Wm. Carpenter killed one of this species from a bunch of Baldpates. This bird has been mounted and is for the present in my care.—L. S. FOSTER, *New York City.*
