FIELD MUSEUM

CHICAGO, ILLINOIS

“April showers bring May flowers”

but this May is especially important to you because on or about
May 1st

The Cumulative 10-Year Index to 'The Auk'—1931-1940

will be off the press and ready for you. Perhaps your pre-publication order has already been sent.
If not, there is still a chance for you to catch up with the parade. When you read this don't
delay but send your order *with remittance*, thereby taking advantage of the pre-publication prices
which are good *only* up to the date of publication, and are as follows:

\$3.50 bound in cloth — \$2.50 in paper covers

After May 1st the prices will be:

\$4.00 bound in cloth — \$3.00 in paper covers

Note: Prices of the four previously published indexes have been reduced. They are \$3.00, bound
in cloth, and \$2.00, in paper (1901-1910, bound, is out of print).

THE AMERICAN ORNITHOLOGISTS' UNION Field Museum, Chicago, Illinois

A Field Guide to Western Birds

By ROGER TORY PETERSON

Peterson's system of bird identification has proved itself the simplest and most scientific yet devised; for field identification it has not been equalled. Every serious ornithologist will want both the Eastern and Western FIELD GUIDES. Each \$2.75

THE AUK

A Quarterly Journal of Ornithology

ORGAN OF THE AMERICAN ORNITHOLOGISTS' UNION

Manuscripts should be typewritten if possible. As an aid in bibliography, titles should be brief. References to literature, if few, may be inserted in parentheses at the appropriate places in the text, or listed at the end of the paper rather than in footnotes. Roman numerals and extensive tables are to be avoided. Line drawings intended for text illustrations should be in India ink; half-tones cannot be printed in the text since the paper is unsuitable. Longer articles should have a brief summary at the end. Except on request, no proofs of 'General Notes' or short communications will be submitted to authors.

Twenty-five copies of leading articles are furnished to authors free of charge. Reprints from 'General Notes,' 'Correspondence,' etc., must be ordered from the Editor when the manuscript is submitted.

All articles and communications intended for publication and all books and publications intended for review should be sent to the Editor,

DR. GLOVER M. ALLEN*
Museum of Comparative Zoology
Cambridge, Mass.

Information relative to advertising, subscriptions, requests for back numbers of 'The Auk,' as well as for other publications of the Union, changes of address and remittances should be sent to the Treasurer and Business Manager. Claims for replacement of missing or defective copies of 'The Auk' will not be honored unless received by the Business Manager within six months of publication of the particular number involved.

RUDYERD BOULTON
Field Museum of Natural History
Chicago, Illinois

OFFICERS OF THE AMERICAN ORNITHOLOGISTS' UNION

President: DR. JAMES P. CHAPIN, American Museum of Natural History, New York, New York.

Vice-Presidents: JAMES L. PETERS, Museum of Comparative Zoology, Cambridge, Massachusetts.

GEORGE WILLET, Los Angeles Museum, Los Angeles, California.

Secretary: DR. LAWRENCE E. HICKS, Ohio Wildlife Research Station, Ohio State University, Columbus, Ohio.

Treasurer and Business Manager: RUDYERD BOULTON, Field Museum of Natural History, Chicago, Illinois.

* Correspondence and other matters pertaining to the editing of THE AUK will be handled in the office of the late Dr. Glover M. Allen until the election by the Council of the new editor.

Audubon Living Memorials

There are few normal human beings who have not on occasion dreamed of a memorial which they would like to leave to posterity . . . sometimes in their own names, but more often to keep alive and to share with others the memory of a member of the family circle or of a friend.

Good fortune in the choice of such a memorial attends all those who have found pleasure in an understanding of nature, who have known and understood the birds of America, the creatures of the wild, and the great American outdoors. For they have an opportunity to reflect this interest by establishing a *living* memorial, which so long as life endures on this earth, will make its manifold contributions to all mankind.

The program of the National Audubon Society presents a number of unusual opportunities for the establishment of such living memorials. The officers and directors of the National Audubon Society will be glad to confer with anyone contemplating the establishment of a memorial, and will also welcome an opportunity to discuss the Society's needs, now or in the future, which may be met either through current gifts or bequests.
