# THE AUK

A Quarterly Journal of Ornithology

ORGAN OF THE AMERICAN ORNITHOLOGISTS' UNION

For publication in 'The Auk,' articles or notes must present material that has not been published elsewhere and that is of significance to ornithologists. All manuscripts should be typewritten, double spaced, with wide margins. Titles should be brief. Terminal bibliographies are used as a rule for long articles. Where fewer than five references to literature are made, they may be inserted in parentheses in the text. References in manuscript for 'General Notes' must always be in the text. Consult issues of 'The Auk' since January, 1949, for style of citation. Long articles should be summarized briefly. Footnotes, Roman numerals, and ruled tables are to be avoided. Acknowledgments belong in the text. Line drawings must be in India ink on white paper or drawing board; usually these should be planned for at least one-half reduction when printed. Thus, details and lettering must be correspondingly large. Captions must be brief. Photographs must be hard, glossy prints of good contrast. Common and scientific names of North American birds should follow the A.O.U. Check-List except in taxonomic papers giving formal, critical discussions.

Proofs of all articles and notes will be sent to authors. Reprints from articles, 'General Notes,' and 'Correspondence' are to be paid for by the author. These must be ordered from the Editor on the blanks sent with the proof and must be returned with the proof. Printed covers can be furnished at additional cost.

All articles and notes submitted for publication and all books and publications intended for review should be sent to the Editor,

HARVEY I. FISHER  
*Department of Zoology  
University of Illinois  
Urbana, Illinois*

Send changes of address, claims for undelivered or defective copies of 'The Auk,' and requests for information relative to advertising, subscriptions, back numbers of 'The Auk,' as well as for other publications of the A.O.U., to the Treasurer,

## BINOCULARS FOR BIRDING

Should always be  
Adjusted to U. S. Government Specifications

**ALL BINOCULARS WE SELL** are shock tested, and checked on our precision collimator, to make sure they meet these rigid requirements. Our new and reconditioned glasses range from an American binocular (with maximum light transmission and widest field ever achieved) at \$175 to a coated Japanese binocular at \$32.50, and a field glass at \$14.95. Liberal trade-ins. We ship on 20 days' trial with refund guarantee; send for our free list.

**ALL BINOCULARS WE REPAIR** are adjusted to the same specifications. We repair and coat all types and makes. Send your glass for free estimate, and our free leaflet "These Hard-Coating Jobs." We also check glasses without charge and answer questions personally.

For details how to choose, use and check a binocular
