New York 16, N. Y.

A distinguished ornithologist concentrates in this new book on field studies of the living bird — location, identification, and the many facets of bird behavior.

OBSERVATIONS FROM NATURE AND AVIARY

Basic but not “popularized,” *Bird Study* offers the keys to understanding song, courtship, nesting, eggs, raising young, migration, and the mysteries of navigation. It covers behavior on a neuroanatomical and hormonal basis, and has a strong section on breeding parasitism.

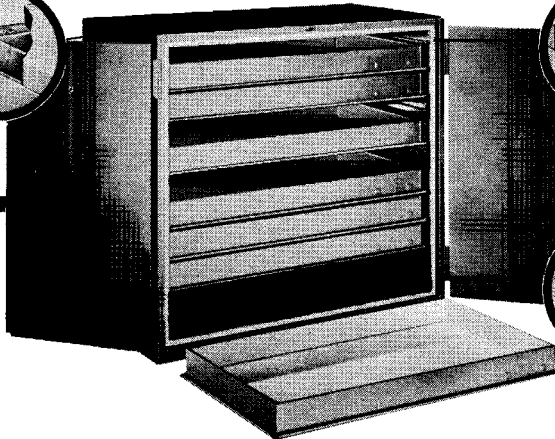

AND CONSERVATION . . .

A special chapter shows birds as an integral part of their environment, and the vital need for protecting both as a part of the entire conservation picture. Here, the prodigal use of insecticides receives its due. *Bird Study* is a “must” for the ornithologist’s library.

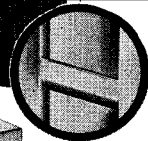

How many years would it take to replace your collection?
 Safe-guard your valuable specimens
 with **DOUBLE-SEALED...AIR-TIGHT**
Lane ZOOLOGY AND ORNITHOLOGY
SPECIMEN STORAGE CASES

Air-Tight
double walled
construction

Insect-proof foam
plastic seals

Fumigant
compartments

Maximum Protection at the Same Cost of Ordinary Cabinets!

Are you giving your valuable collection proper protection? Only Lane Cabinets are engineered specifically for protection against all the elements including infestation and theft and contain such exclusive features as:

- Air-tight double-walled construction
- Insect-proof foam plastic seals
- Key-lock handles
- "Swing Away" lift off hinges
- Three-point locking system
- Specimen trays of aluminum and masonite, lightweight, sturdy, easy to handle

THE AUK

A Quarterly Journal of Ornithology

ORGAN OF THE AMERICAN ORNITHOLOGISTS' UNION

All articles and notes submitted for publication and all books and publications intended for review should be sent to the Editor:

DONALD S. FARNER, *Department of Zoology, Washington State University, Pullman, Washington.*

All persons interested in ornithology are invited to join the American Ornithologists' Union. Application may be made to the Treasurer; dues for Members are \$5.00 per year. "The Auk" is sent without charge to all classes of members not in arrears for dues.

Send changes of address, claims for undelivered or defective copies of "The Auk," and requests for information relative to advertising, subscriptions, back numbers of "The Auk," as well as for other publications of the Union, to the Treasurer: CHARLES G. SIBLEY, *Fernow Hall, Cornell University, Ithaca, New York.*

OFFICERS OF THE AMERICAN ORNITHOLOGISTS' UNION

President: GEORGE H. LOWERY, JR., *Museum of Zoology, Louisiana State University, Baton Rouge, Louisiana.*

First Vice-President: JOHN T. EMLIN, JR., *Department of Zoology, University of Wisconsin, Madison 6, Wisconsin.*

Second Vice-President: ROGER TORY PETERSON, *Neck Road, Old Lyme, Conn.*

Editor: DONALD S. FARNER, *Department of Zoology, Washington State University, Pullman, Washington*

Associate Editor: JAMES R. KING, *Department of Zoology, Washington State University, Pullman, Washington.*

Managing Editor: HENRY GROSSHANS, *Office of Publications, Washington State University, Pullman, Washington.*

Secretary: LAWRENCE H. WALKINSHAW, *1703 Wolverine Tower, Battle Creek, Michigan.*

Treasurer: CHARLES G. SIBLEY, *Fernow Hall, Cornell University, Ithaca, N. Y.*

TOM IMHOF
STUDENT OF ALABAMA BIRDS **Says:**

"*Audubon Field Notes* is an unusual magazine with continent-wide coverage which keeps the bird student informed of changes in the abundance of birds, range extensions, invasions, big flights, migration delays and speed-ups, and almost any type of bird movement, with interesting commentary by experts. A bird student without this information is like a physician without his medical journals, a military commander without intelligence reports, a politician without his 'ears to the ground.' He simply cannot afford to be without it."

ATLAS OF AVIAN HEMATOLOGY

ALFRED M. LUCAS and CASIMIR JAMROZ

This reference monograph of basic research prepared at the Regional Poultry Research Laboratory, East Lansing, Michigan (U. S. Department of Agriculture), was written for those who wish to identify accurately different types of avian blood cells. There are 48 plates from original water colors. Blood from representative wild birds is included for comparison with that of the chicken. The monograph covers the cells of the circulating blood in both the adult and embryo. Developmental stages from hematopoietic organs are illustrated and described.

The monograph is the first publication in any language that covers extensively the cytologic aspects of avian hematology.

Copies may be purchased from the Superintendent of Documents, U. S. Government Printing Office, Washington 25, D. C.
