

**LAILAW WILLIAMS Says:**  
**STUDENT OF BIRD BEHAVIOR**

"*Audubon Field Notes* is the only magazine of wide circulation in the United States and Canada whose aim is to stimulate its large number of readers, who are amateur ornithologists, to more worthwhile use of leisure time. Contributions thus obtained are critically edited, regionally coordinated and seasonally summarized. The published results become permanently available to both professional and amateur throughout the world."

How many years would it take to replace your collection?  
 Safe-guard your valuable specimens  
 with **DOUBLE-SEALED...AIR-TIGHT**  
*Lane* ZOOLOGY AND ORNITHOLOGY  
**SPECIMEN STORAGE CASES**

Air-Tight  
double walled  
construction

Insect-proof foam  
plastic seals

Fumigant  
compartments

**Maximum Protection at the Same Cost of Ordinary Cabinets!**

Are you giving your valuable collection proper protection? Only Lane Cabinets are engineered specifically for protection against all the elements including infestation and theft and contain such exclusive features as:

- Air-tight double-walled construction
- Insect-proof foam plastic seals
- Key-lock handles
- "Swing Away" lift off hinges
- Three-point locking system
- Specimen trays of aluminum and masonite, lightweight, sturdy, easy to handle

# THE AUK

## A Quarterly Journal of Ornithology

### ORGAN OF THE AMERICAN ORNITHOLOGISTS' UNION

THE AUK is edited at the Museum of Natural History, The University of Kansas, Lawrence, Kansas, by the following staff:

*Editor*, ROBERT M. MENGEL; *Assistant Editors*, RICHARD F. JOHNSTON and J. KNOX JONES, JR.;

*Editorial Assistants*, MARION J. PHILLIPS and JOYCE L. WILDENTHAL.

*The Auk* welcomes original articles and short notes, not published elsewhere, containing significant new knowledge about birds, or new interpretation of existing knowledge. Address all articles and notes intended for publication and all books intended for review to the editor.

*Suggestions to contributors.*—The efficient and economical transmission of knowledge by means of the printed word requires effective participation of author, editor, and printer. In order to facilitate the task of the printer, the editor should receive from authors MSS satisfying the following minimal requirements: *MSS should be typewritten, double-spaced (especially tables and "literature cited"), on one side of numbered sheets of standard (8½ × 11 in.) bond paper, with at least one inch margin all around. Tables (which should be unruled) and legends should be typed on separate sheets. Drawings should be in India ink on good board or drafting papers and lettered by lettering guide or the equivalent. Photographs should be clear, of good contrast, on glossy paper. Illustrations should allow (with particular regard to lettering) for reduction to ½ their original dimensions (final width will usually be 4¼ in.).*

Scientific and (if any) vernacular names of birds should be given upon first mention thereof and should follow the A. O. U. Check-list (1957) or the appropriate equivalent unless departures are explained and defended.

For bird weights and measurements, use metric units; for environmental and other precise measurements, metric units are recommended but English equivalents may be supplied parenthetically. The 24-hour clock and "continental" dating (e.g., 1 July 1758) are likewise recommended.

Titles should be short and descriptive. MSS should follow the conventions of form observed in articles, general notes, and reviews in *The Auk*, with minor variations, since 1950. If more than 10 works are cited, references in text should relate to a terminal list of "literature cited" (see *Auk*, vols. 78 or 79 for form; *include no titles not cited*) except in general notes, where citation should normally be in text. Avoid footnotes. *Where critical matter is cited from longer papers, indicate the pertinent pages, e.g. "(Lack, 1947: 96-97)."* Citations in text should be parenthetical, e.g. "(D. Lack, 1947. *Darwin's finches*. Cambridge Univ. Press)" or "(*Auk*, 79: 251, 1962)." *Verify all citations from original sources unless impossible, in which case so indicate.*

Articles more than 10 pp. long should include a summary that should not exceed 10 per cent of the length of the article.

For abbreviations and minor matters of form see recent issues of *The Auk*. The *Style manual for biological journals* (Washington, D. C., Amer. Inst. Biol. Sci. 1960) is generally useful also. In controversial matters of form *The Auk* frequently relies finally on the dicta of *A manual of style* (Chicago, Univ. Chicago Press, 1949).

Proofs of all articles and notes will be sent to authors. Reprints of articles, notes, and other items are to be paid for by the author. These must be ordered from the editor on the blanks sent with the proof and to be returned therewith. Printed covers can be furnished at additional cost.

## CONTENTS

THE NOMENCLATURE OF PLUMAGES AND MOLTS. <i>Erwin Stresemann</i>	1
ECOLOGICAL AND REPRODUCTIVE RELATIONSHIPS OF BLACK-CAPPED AND CAROLINA CHICKADEES. <i>Richard Brewer</i>	9
A CASE OF JOINT NIDIFICATION IN RING DOVES. <i>Barbara Marshall Matthews</i>	48
COURTSHIP AND AGONISTIC BEHAVIOR OF THE COMMON GRACKLE, <i>QUISCALUS QUISCULA</i> . <i>Robert W. Ficken</i>	52
GENERAL NOTES	
On the American status of <i>Tiaris canora</i> and <i>Carduelis carduelis</i> . <i>O. L. Austin, Jr.</i>	73
Mississippi Kite in Argentina; with comments on migration and plumages in the genus <i>Ictinia</i> . <i>Eugene Eisenmann</i>	74
Additional eastern records of Ross' Goose' ( <i>Chen rossii</i> ). <i>C. D. MacInnes and F. G. Cooch</i>	77
The first record of the Double-striped Thick-knee in the United States. <i>C. D. MacInnes and E. B. Chamberlain</i>	79
Incomplete first prebasic molt in the Chukar Partridge. <i>George E. Watson</i>	80
Nesting and nest visitors of the Vaux's Swift in Montana. <i>Paul H. Baldwin and William F. Hunter</i>	81
Fork-tailed Flycatcher ( <i>Muscivora tyrannus tyrannus</i> ) taken in Texas. <i>Pauline James</i>	85
An observation of tolerance of disturbance by a male American Woodcock on his singing ground. <i>Bruce S. Wright</i>	85
REVIEWS	86
RECENT LITERATURE. <i>Edited by John William Hardy</i>	94
