

NETTING SUPPLIES

As a service to scientific investigation, Bleitz Wildlife Foundation has available a new price list containing several new types of mist nets, net poles and other netting supplies. Address:

BLEITZ WILDLIFE FOUNDATION
5334 Hollywood Boulevard
Hollywood 27, California

Attention All Members

The officers of the A.O.U. wish to express gratitude to the members who have donated 1962 numbers of *The Auk* to the Union. Many more copies of the January, April, and July issues of that year, however, are still required to build reserve stocks to normal levels. So other members who do not keep permanent files of the journal are urged to send the three 1962 issues, whenever they are through with them, to:

ROBERT J. NEWMAN, *Treasurer*
The American Ornithologists' Union
Museum of Zoology—Box 8669
Louisiana State University
Baton Rouge, Louisiana 70803

In addition, a recent inventory of our stock of 50,000 back numbers has revealed that the value of this immense resource is seriously impaired by the lack or near-lack of certain older issues, by gaps that break up the complete sequences desired by libraries. Members who have copies of needed numbers could render a great service to ornithology by arranging to have their copies of these numbers eventually transferred to the Union. To aid members in leaving instructions to that effect, the Treasurer has prepared mimeographed lists of the needed issues. Write for one if your holdings of *The Auk* extend back as far as 1953.

The wanted issues of the past thirty years are:

Vol. 79 (1962) January, April, July; Vol. 70 (1953) January; Vol. 69 (1952) January; Vol. 66 (1949) January, April; Vol. 65 (1948) January, October; Vol. 64 (1947) all; Vol. 63 (1946) all; Vol. 62 (1945) January; Vol. 57 (1940) January; Vol. 56 (1939) all; Vol. 54 (1937) all; Vol. 53 (1936) April, July, October; Vol. 47 (1930) January.

By cooperating in the A.O.U. program to make sets of *The Auk* available to college, university, and other libraries, you can help to maintain the journal as a medium through which the serious student of birds can communicate his findings not only to a maximum number of his contemporaries but also to as much of interested posterity as possible. Consult with the Treasurer before you dispose of any of the listed issues.

To be published in November:

The Proceedings of the XIIIth International Ornithological Congress

Orders are now being accepted for the PROCEEDINGS OF THE XIIIth INTERNATIONAL ORNITHOLOGICAL CONGRESS. This two-volume work will be bound in hard covers and will contain more than 1,200 pages. The price (postage prepaid) is \$20.00, when remittance accompanies orders. Checks should be made out to The American Ornithologists' Union and sent to Dr. Robert J. Newman, Treasurer of the A. O. U., Museum of Zoology, Louisiana State University, Baton Rouge, Louisiana. Persons who were members of the Congress will receive the PROCEEDINGS without charge, as one of the privileges of membership.

ROBERT J. NEWMAN
TREASURER, AMERICAN ORNITHOLOGISTS' UNION

Says:

"Though frequently called 'bird watchers,' most American bird enthusiasts concentrate on bird-finding, a fascinating pursuit that is particularly fascinating on this continent and an activity at which they are especially adept. *Audubon Field Notes* provides the most up-to-date and comprehensive news regarding bird-finding and is therefore a 'must' for every such enthusiast. At the same time, the journal is accumulating a wealth of data about the distribution of birds with vast potentialities for scientific analysis. As a result, *Audubon Field Notes* is one bird periodical that neither the specialized student of bird ranges nor the average amateur can afford to miss."

NOTES ON THE BIRDS of Great Smoky Mountains National Park

By **ARTHUR STUPKA**

Park Biologist, Great Smoky Mountains National Park

Arthur Stupka, the pioneer park naturalist in the eastern U.S., became park naturalist for the Great Smokies in 1935, where he served for the next 25 years. It is from his personal nature journal, kept daily during this period, that he has drawn these notes on the occurrence and behavior of more than 200 species of birds—their range, dates of arrival and departure, habitats, nesting and similar data. Stupka includes not only his own research and records, but the observations of other Park Service personnel, contributions by visiting professional ornithologists, and data from amateur bird students. Paperbound, 256 pages, \$3.00

"It's a delightful book"—Saturday Review's Pick of the Paperbacks.

". . . a concise record, well-written and never dull. Unique and tantalizing bits of information"—Nashville Banner.

"A scholarly and distinguished work"—Lucy Templeton's Country Calendar, Knoxville News-Sentinel.

THE AUK

A Quarterly Journal of Ornithology

ORGAN OF THE AMERICAN ORNITHOLOGISTS' UNION

THE AUK is edited at the Museum of Natural History, The University of Kansas, Lawrence, Kansas, by the following staff:

Editor, ROBERT M. MENGEL; *Assistant Editors*, RICHARD F. JOHNSTON and J. KNOX JONES, JR.;

Editorial Assistants, MARION J. PHILLIPS and JOYCE L. WILDENTHAL.

The Auk welcomes original articles and short notes, not published elsewhere, containing significant new knowledge about birds, or new interpretation of existing knowledge. Address all articles and notes intended for publication and all books intended for review to the editor.

Suggestions to contributors.—The efficient and economical transmission of knowledge by means of the printed word requires effective participation of author, editor, and printer. In order to facilitate the task of the printer, the editor should receive from authors MSS satisfying the following minimal requirements: *MSS should be typewritten, double-spaced (especially tables and "literature cited"), on one side of numbered sheets of standard (8½ × 11 in.) bond paper, with at least one inch margin all around. Tables (which should be unruled) and legends should be typed on separate sheets. Drawings should be in India ink on good board or drafting papers and lettered by lettering guide or the equivalent. Photographs should be clear, of good contrast, on glossy paper. Illustrations should allow (with particular regard to lettering) for reduction to ½ their original dimensions (final width will usually be 4¼ in.).*

Scientific and (if any) vernacular names of birds should be given upon first mention thereof and should follow the A. O. U. Check-list (1957) or the appropriate equivalent unless departures are explained and defended.

For bird weights and measurements, use metric units; for environmental and other precise measurements, metric units are recommended but English equivalents may be supplied parenthetically. The 24-hour clock and "continental" dating (e.g., 1 July 1758) are likewise recommended.

Titles should be short and descriptive. MSS should follow the conventions of form observed in articles, general notes, and reviews in *The Auk*, with minor variations, since 1950. If more than 10 works are cited, references in text should relate to a terminal list of "literature cited" (see *Auk*, vols. 78 or 79 for form; *include no titles not cited*) except in general notes, where citation should normally be in text. Avoid footnotes. *Where critical matter is cited from longer papers, indicate the pertinent pages*, e.g. "(Lack, 1947: 96-97)." Citations in text should be parenthetical, e.g. "(D. Lack, 1947. *Darwin's finches*. Cambridge Univ. Press)" or "(*Auk*, 79: 251, 1962)." *Verify all citations from original sources unless impossible, in which case so indicate.*

Articles more than 10 pp. long should include a summary that should not exceed 10 per cent of the length of the article.

For abbreviations and minor matters of form see recent issues of *The Auk*. The *Style manual for biological journals* (Washington, D. C., Amer. Inst. Biol. Sci. 1960) is generally useful also. In controversial matters of form *The Auk* frequently relies finally on the dicta of *A manual of style* (Chicago, Univ. Chicago Press, 1949).

Proofs of all articles and notes will be sent to authors. Reprints of articles, notes, and other items are to be paid for by the author. These must be ordered from the editor on the blanks sent with the proof and to be returned therewith. Printed covers can be furnished at additional cost.
