

AMERICAN ORNITHOLOGISTS' UNION  
1964 MEMBERSHIP DIRECTORY

THIS 1964 Membership Directory aims to incorporate all corrections of names and all changes of address received prior to 15 September 1964. It also includes the results of elections to membership and to special categories voted at the Eighty-second Stated Meeting of the Union, in Lawrence, Kansas, 30 August–3 September 1964. The list is divided into five sections, as follows: Officers for 1964–65, Patrons, Honorary Fellows, Corresponding Fellows, and general membership. The general membership section repeats the names of Officers and living Patrons.

In the case of Fellows, Elective Members, and Patrons, two dates are shown. The first, in parentheses, indicates when the member was first admitted to the Union. The second, not in parentheses, is the year when the member became a Fellow, Elective Member, or Patron. Special categories within the general membership section are identified by boldface letters according to the following key: **F** for Fellow, **EM** for Elective Member, **LF** for Life Fellow, **LEM** for Life Elective Member, **LM** for Life Member, **FE** for Fellow Emeritus, **HLEM** for Honorary Life Elective Member, **HLM** for Honorary Life Member.

## A Message To All Members

The time to pay annual dues of \$5.00 is here again. Your prompt response will help the AOU keep its dues as low—and its services to ornithology as varied—as they are now. But as you make out your check, think seriously of writing it out for \$37.50 as a first installment on a Life Membership or for \$150.00 as payment in full. This way of ending forever the nuisance of paying annual dues and of safeguarding against eventual increases in dues is a privilege available to members of all classes.

Life Membership payments go into a General Endowment Fund invested in securities. In the rapid post-war inflation, this investment fund has become of increasingly vital importance. While printing costs have doubled, it has permitted the Union to continue to publish volumes of *The Auk* of 600 pages or more while maintaining the high scientific quality that has made our journal great. But costs are ever rising. Endowment must keep pace.

Contributions to the General Endowment may also be made by gift or bequest. Donations of any size are welcome and all are tax-deductible. Members or friends of the AOU whose gifts total or exceed \$1,000 are permanently inscribed on the rolls of the society as Patrons. Bequests may be made to The American Ornithologists' Union in either cash or property.

Those who wish to use the opportunity of serving the Union that the Endowment Fund provides should send their contributions to the Treasurer. The extra remittance can be included with annual dues.

Melvin Traylor, Chairman  
Endowment Committee

*A beautifully written ornithology text!*

## Welty's THE LIFE OF BIRDS

Written in narrative style, this widely-acclaimed text concentrates a wealth of avian facts into a volume that is scientifically sound—and delightful to read. With the accompaniment of nearly 300 photos, drawings, maps and charts, the living bird is thoroughly described through such topics as: *Internal organ function—courtship and mating practices—external appearances and adaptability—population, territory and geography.*

Not only is this an ideal volume for introductory college ornithology courses, it will serve as an informative and valuable addition to any bird enthusiast's library.

By JOEL CARL WELTY, Ph.D., Professor and Head,  
Department of Biology, Beloit College, Beloit, Wis.  
546 pages, 6" × 9<sup>1</sup>/<sub>4</sub>", with 280 illustrations. \$9.00.

"Though frequently called 'bird watchers,' most American bird enthusiasts concentrate on bird-finding, a fascinating pursuit that is particularly fascinating on this continent and an activity at which they are especially adept. *Audubon Field Notes* provides the most up-to-date and comprehensive news regarding bird-finding and is therefore a 'must' for every such enthusiast. At the same time, the journal is accumulating a wealth of data about the distribution of birds with vast potentialities for scientific analysis. As a result, *Audubon Field Notes* is one bird periodical that neither the specialized student of bird ranges nor the average amateur can afford to miss."

## Recent Publications of the AOU

***The Proceedings of the XIIIth International Ornithological Congress.***

A two-volume work of more than 1,250 pages, handsomely bound in cloth and illustrated by a colored frontispiece. Contains 110 papers on birds presented or read by title at the most recent Congress. \$20.00 per two-volume set.

***A Distributional Study of the Birds of British Honduras*** by Stephen M. Russell. No. 1 in a new series of ORNITHOLOGICAL MONOGRAPHS and the first comprehensive report in English on the birds of any Central American country in 26 years. Summarizes distribution, variation, breeding season, and ecological preferences. Regular price \$4.50. Price to AOU members \$3.60.

***1964 Directory of AOU Members.*** Published as part of this issue of THE AUK. Also offered for convenience of AOU members in separate form, with paper covers. Single copies, \$1.25. Two or more copies \$1.00 each.

Members of the AOU who are associated with a college or university are urged to bring the *Proceedings* and *Ornithological Monographs* to the attention of the acquisitions department of their campus library. Because *Proceedings* of International Ornithological Congresses are published only every four years, each time under different auspices, in different countries, libraries often have no other ready means of learning when new offerings in the series become available.

# Ornithological Safari through East Africa

When one thinks of Africa it is usually in terms of white hunters, lions, elephants and Kilimanjaro. Few people are aware that while looking at rhino they can also watch the fascinating activities of the red-billed oxpecker, without whom the rhino's life would be a misery, or study the close and friendly relationship between the elephant and the egret.

Nowhere in the world is there a greater selection of native species of birds which are more accessible than in Kenya. In this country alone there are 1033 species ranging from the West African forest birds in the Kakamega Forest to the marine species on the shores of the Indian Ocean. What the American ornithologist, Roger Tory Peterson, has described as the "most fabulous bird spectacle in the world," exists at Lake Nakura, where congregations of several millions of flamingos are to be seen.

***You are invited to join a special tour of "Bird Watchers,"  
leaving New York for Kenya on February 17, 1965.***

The internationally-renowned ornithologist, JOHN G. WILLIAMS, of the Coryndon Museum in Nairobi, will be acting in an advisory capacity throughout the whole period of this tour.

Amongst the expeditions which Mr. Williams has led were the Queeny Expedition of the American Museum of Natural History in 1950, the Chicago Natural History Expedition in 1954, the British-American Expedition to Angola in 1957, the Carnegie Expedition in 1958, and the Los Angeles Museum Expedition in 1963.

Visited on the tour will be, among many places, Lake Magadi, Amboseli Game Reserve, the Treetops, Lakes Naivasha, Nakuru, Baringo and Hannington, Kakamega Forest, Sirimon Track on Mount Kenya, etc.

Air transportation in connection with the Safari will be via fine jet aircraft of Lufthansa German Airlines. Land arrangements will be handled by Lindblad Travel, Inc., of New York City, one of the country's outstanding travel organizations and a specialist in African travel arrangements.

# THE AUK

## A Quarterly Journal of Ornithology

ORGAN OF THE AMERICAN ORNITHOLOGISTS' UNION

THE AUK is edited at the Museum of Natural History, The University of Kansas, Lawrence, Kansas 66045, by the following staff:

*Editor*, ROBERT M. MENGEL; *Assistant Editor*, J. KNOX JONES, JR.

*Editorial Assistants*, ERWIN E. KLAAS, LINDA T. KLAAS, and GARY C. PACKARD.

*The Auk* welcomes original articles and short notes, not published elsewhere, containing significant new knowledge about birds, or new interpretation of existing knowledge. Address all articles and notes intended for publication and all books intended for review to the editor.

*Suggestions to contributors.*—The efficient and economical transmission of knowledge by means of the printed word requires effective participation of author, editor, and printer. In order to facilitate the task of the printer, the editor should receive from authors MSS satisfying the following minimal requirements: *MSS should be typewritten, double-spaced (especially tables and "literature cited"), on one side of numbered sheets of standard (8½ × 11 in.) bond paper, with at least one inch margin all around. Tables (which should be unruled) and legends should be typed on separate sheets. Drawings should be in India ink on good board or drafting papers and lettered by lettering guide or the equivalent. Photographs should be clear, of good contrast, on glossy paper. Illustrations should allow (with particular regard to lettering) for reduction to ½ their original dimensions (final width will usually be 4¼ in.).*

Scientific and (if any) vernacular names of birds should be given upon first mention thereof and should follow the A. O. U. Check-list (1957) or the appropriate equivalent unless departures are explained and defended.

For bird weights and measurements, use metric units; for environmental and other precise measurements, metric units are recommended but English equivalents may be supplied parenthetically. The 24-hour clock and "continental" dating (e.g., 1 July 1758) are likewise recommended.

Titles should be short and descriptive. MSS should follow the conventions of form observed in articles, general notes, and reviews in *The Auk*, with minor variations, since 1950. If more than 10 works are cited, references in text should relate to a terminal list of "literature cited" (see *Auk*, vols. 78 or 79 for form; *include no titles not cited*) except in general notes, where citation should normally be in text. Avoid footnotes. *Where critical matter is cited from longer papers, indicate the pertinent pages, e.g. "(Lack, 1947: 96-97)."* Citations in text should be parenthetical, e.g. "(D. Lack, 1947. *Darwin's finches*. Cambridge Univ. Press)" or "(*Auk*, 79: 251, 1962)." *Verify all citations from original sources unless impossible, in which case so indicate.*

Articles more than 10 pp. long should include a summary that should not exceed 10 per cent of the length of the article.

For abbreviations and minor matters of form see recent issues of *The Auk*. The *Style manual for biological journals* (Washington, D. C., Amer. Inst. Biol. Sci., 1960) is generally useful also. In controversial matters of form *The Auk* frequently relies finally on the dicta of *A manual of style* (Chicago, Univ. Chicago Press, 1949).

Proofs of all articles and notes will be sent to authors. Reprints of articles, notes, and other items are to be paid for by the author. These must be ordered from the editor on the blanks sent with the proof and to be returned therewith. Printed covers can be furnished at additional cost.
