

“A landmark!” – AUSTIN L. RAND

A NEW DICTIONARY OF BIRDS

Edited by Landsborough Thomson

Modern, new, profusely illustrated, this reference is *the* most necessary work for today's birder to come along in our generation. Indispensable as a supplement to the field guides now owned. "A landmark . . . will be timeless."—Austin L. Rand, Past President, American Ornithologists' Union.

- Prepared by 175 specialists • Hitherto unpublished material • Encyclopedic treatment • Alphabetical arrangement • Cross-referenced • 900 pages • 300 drawings • 48 pages of photos • 16 color plates • \$17.50

THOREAU ON BIRDS

Selections from his writings

Compiled and with commentary by Helen Cruickshank;
introduction by Roger Tory Peterson

Exquisitely sensitive passages in which Thoreau describes his encounters with New England birds, including his experiences at Walden Pond, the Maine Woods, and Cape Cod. Mrs. Cruickshank makes fascinating remarks that highlight and deepen Thoreau's observations. "Should have long life."—*Edwin Way Teale*. Illustrated with 16 pages of line drawings and paintings from books Thoreau himself consulted. \$7.95

A NEW ORNITHOLOGICAL JOURNAL

We feel there is a wealth of ornithological data appearing in foreign-language journals which is not adequately disseminated to the English-speaking ornithologists. It is our hope to partially alleviate this situation by the publication of English translations of the more important foreign-language ornithological articles. The first issue of this journal, to be entitled **Ornithology**, is scheduled for publication in January of 1966. While at present we plan only publication of the more important current articles, we would consider suggestions regarding translation of noteworthy articles published prior to 1965, if such articles provide a notable contribution to the English-speaking ornithologists. We would appreciate, in fact we solicit, your comments and opinions regarding this proposed publication.

Mist Nets and Related Equipment

As a service to scientific investigation, Bleitz Wildlife Foundation supplies mist nets, special poles, and related equipment. Write for new price list—Bleitz Wildlife Foundation, 5334 Hollywood Boulevard, Hollywood 27, California.

Birds of New Guinea

BY TOM IREDALE

The only comprehensive work on the subject, in which some 650 species are described and 1,500 sub-species are indicated. Illustrated by Lilian Medland with 35 plates in color figuring 347 birds.

In 2 volumes. Now available at £12. 12. 0 Australian (\$30.00 including postage)

Very few copies still available of **BIRDS OF PARADISE AND BOWER BIRDS**, by the same author, with 33 plates in color figuring 138 birds. £6/6—Australian (\$15.00 including postage).

Obtainable from booksellers or from the publishers

JOURNEY TO ORNITHOLOGICAL AREAS
in Japan, Hong Kong, Bangkok, Kashmir and Rajahstan,
the U.S.S.R. and Finland
JUNE 6 TO JULY 21, 1965

- Leaders** • MR. FRED BODSWORTH, author of *THE LAST OF THE CURLEWS* and *THE STRANGE ONE*.
DR. AUSTIN CAMERON, Curator of Vertebrates, Redpath Museum, McGill University.
- Cooperating** • Yamashina Institute of Ornithology, Tokyo; Hong Kong Bird-watching Society, Pratap Singh Museum, Srinagar; Game Warden of Kashmir; Divisional Forest Officer, Bharatpur; Academy of Sciences of the U.S.S.R. and Soviet Ornithologists; University of Helsinki and Mr. Mauri Rautkari in Finland. Local guidance everywhere.
- JAPAN** • Island Speciation: Noda Sagiyama, Japanese Alps, Fuji-Hakone National Park.
HONG KONG and BANGKOK
- KASHMIR** • Mountains as Dispersal Barriers: The Vale of Kashmir and Passes of the Himalaya with the Dachigam Wildlife Sanctuary. The Gardens of Srinagar, Wular and Manasbal Lakes, Jhelum River, Gulmarg, Pahalgam, and optional mountain trekking to the Kolahai Glacier and Lidderwat.
- RAJAHSTAN** • The Keoladeo Ghana Bird Sanctuary at nesting time, India's, and probably the world's most famous waterfowl sanctuary. Painted storks, white ibis, Indian darters, sarus cranes, etc., to photograph at close range. Delhi, Agra and Jaipur.
- U.S.S.R.** • The Crimean Reservation between Simferopol and Yalta, Black Sea and Caucasus, Moscow and Leningrad.
- FINLAND** • Karigasniemi above the Polar Circle from Inari and Ivalo. Helsinki.
- ALL INCLUSIVE COST** • U.S. \$2,493.00.
Includes round the world ticket, top hotels, private bathrooms, all meals, excursions, etc.

Write for printed program to Mr. Fred Bodsworth, 294 Beech Avenue, Toronto 13, Ontario, Canada, or to Dr. Austin Cameron, Redpath Museum, McGill University, Montreal, Quebec, Canada.

Technical Arrangements: **TREASURE TOURS, INC.**
1010 St. Catherine West, Montreal, Quebec, Canada

Recent Publications of the AOU

1964 Directory of AOU Members. A reprint from the October 1964 AUK, with paper covers. Single copy, \$1.25. Two or more copies, \$1.00 each.

A Distributional Study of the Birds of British Honduras. No. 1 in a new series of ORNITHOLOGICAL MONOGRAPHS. Regular price \$4.50. Price to AOU members \$3.60.

The Proceedings of the XIIIth International Ornithological Congress. Two volumes clothbound. \$20.00 per set.

Postpaid. Order from: The Treasurer, American Ornithologists' Union, Museum of Zoology, Drawer MU, Louisiana State University, Baton Rouge, La. 70803.

You Can Afford the Best!

A specimen case with quality. Check these features—

1. Air tight Buna N seals.
2. Double wall heavy steel construction with reinforcement between the wall.
3. Light-weight aluminum doors.
4. Construction so sturdy cases can be stacked three high.

How to obtain source materials inexpensively

Source materials are basic to all research. Unfortunately, in many cases such materials are inordinately expensive to obtain and to house due both to scarcity and to bulk. The result is the accumulation of sources at various points so that Professor A must travel to Institution B in order to use Source C, which is housed there.

Is there a solution to this problem? Yes, a simple one—miniaturize the information so that it can be reproduced and distributed inexpensively.

We are in the business of issuing books, journals, reports, manuscripts, technical data, etc., in miniaturized form using opaque (Microcard) and transparent (microfiche) cards on which materials have been reduced to approximately 1/18th their original size. We invite your inquiries with regard to how miniaturization can make source materials and the results of research more widely available.

What has been done to date?

In history and political science: The *French Journal* and the debates of the German Reichstag are currently being reproduced along with other source materials for the study of modern European history.

In psychology: Unprocessed and uninterpreted tests (e.g., Rorschach, TAT) given to individuals outside the main stream of western culture (e.g., Eskimos, Navahos) have been made available to researchers under the title *Primary Sources in Culture and Personality*.

In international relations: The *Official Documents* of the Organization of American States have been issued in miniaturized form since 1961.

In literature: *Early English Text Society Publications*, *Chaucer Society Publications*, *Shakespeare Society Publications*, are among the many basic sets containing primary source materials that have been reprinted on Microcard and microfiche.

In chemistry: U. S. chemical patents are supplied on microfiche at 4¢ per patent—85% less than the 25¢ charged for patents in their original form plus a space saving of 95%.

In physics: Unclassified reports of the U. S. Atomic Energy Commission are available on Microcard and microfiche. These reports (over 50,000 to date) comprise a substantial portion of the world literature on atomic energy as the technical report is the principal form in which results of research and development by the AEC and its contractors are recorded.

In linguistics: The *Index to Rimes in American and English Poetry*, a file of over 100,000 5"x8" cards, was the result of a project to study changing pronunciations by recording how poets rimed words with selected key words over a three-century period. For many years this information was available only to scholars able to travel to the university housing the cards, but their reproduction on Microcard has permitted all interested universities to obtain this valuable source for advanced research in linguistics and allied fields.

In mathematics: The *First Six Million Prime Numbers*, the largest list of prime numbers ever issued, was published exclusively on Microcard, as by no other method could the thousands of pages of computer print-out be made available inexpensively.

In short, miniaturization of this type is most useful when there is a need to distribute a vast quantity of information to a limited number of people. Perhaps you have such a project in mind. If so, let us hear from you.

THE AUK

A Quarterly Journal of Ornithology

ORGAN OF THE AMERICAN ORNITHOLOGISTS' UNION

THE AUK is edited at the Museum of Natural History, The University of Kansas, Lawrence, Kansas 66045, by the following staff:

Editor, ROBERT M. MENGEL; *Assistant Editor*, J. KNOX JONES, JR.
Editorial Assistants, ERWIN E. KLAAS and GARY C. PACKARD.

The Auk welcomes original articles and short notes, not published elsewhere, containing significant new knowledge about birds, or new interpretation of existing knowledge. Address all articles and notes intended for publication and all books intended for review to the editor.

Suggestions to contributors.—The efficient and economical transmission of knowledge by means of the printed word requires effective participation of author, editor, and printer. In order to facilitate the task of the printer, the editor should receive from authors MSS satisfying the following minimal requirements: *MSS should be typewritten, double-spaced (especially tables and "literature cited"), on one side of numbered sheets of standard (8½ × 11 in.) bond paper, with at least one inch margin all around. Tables (which should be unruled) and legends should be typed on separate sheets. Drawings should be in India ink on good board or drafting papers and lettered by lettering guide or the equivalent. Photographs should be clear, of good contrast, on glossy paper. Illustrations should allow (with particular regard to lettering) for reduction to ½ their original dimensions (final width will usually be 4¼ in.).*

Scientific and (if any) vernacular names of birds should be given upon first mention thereof and should follow the A. O. U. Check-list (1957) or the appropriate equivalent unless departures are explained and defended.

For bird weights and measurements, use metric units. Other measurements should be in the form usual to the discipline of the paper as practiced in the United States. The 24-hour clock and "continental" dating (e.g., 1 July 1858) are recommended.

Titles should be short and descriptive. MSS should follow the conventions of form observed in articles, general notes, and reviews in *The Auk*, with minor variations, since 1950. If more than 10 works are cited, references in text should relate to a terminal list of "literature cited" (see *Auk*, vols. 78 or 79 for form; *include no titles not cited*) except in general notes, where citation should normally be in text. Avoid footnotes. *Where critical matter is cited from longer papers, indicate the pertinent pages, e.g. "(Lack, 1947: 96-97)."* Citations in text should be parenthetical, e.g. "(D. Lack. *Darwin's finches*. Cambridge Univ. Press, 1947.)" or "(*Auk*, 79: 251, 1962)." *Verify all citations from original sources unless impossible, in which case so indicate.*

Articles more than 10 pp. long should include a summary that should not exceed 10 per cent of the length of the article.

For abbreviations and minor matters of form see recent issues of *The Auk*. The *Style manual for biological journals* (Washington, D. C., Amer. Inst. Biol. Sci. 1960) is generally useful also. In controversial matters of form *The Auk* frequently relies finally on the dicta of *A manual of style* (Chicago, Univ. Chicago Press, 1949).

Proofs of all articles and notes will be sent to authors. Reprints of articles, notes, and other items are to be paid for by the author. These must be ordered from The Allen Press on the blanks sent with the proof.
