Birds of New Guinea

BY TOM IREDALE

The only comprehensive work on the subject, in which some 650 species are described and 1,500 sub-species are indicated. Illustrated by Lilian Medland with 35 plates in color figuring 347 birds.

In 2 volumes. Now available at £12. 12. 0 Australian (\$30.00 including postage)

Very few copies still available of *BIRDS OF PARADISE AND BOWER BIRDS*, by the same author, with 33 plates in color figuring 138 birds. \$6/6/-Australian (\$15.00 including postage).

Obtainable from booksellers or from the publishers

GEORGIAN HOUSE PTY. LTD.

P. O. Box 52, Albert Park, Victoria, Australia

STILL WANTED: BACK AUKS

To complete sets of the journal for college, university, and other libraries, the AOU will have a long-continuing need for the following issues: Vol. 79 (1962) January, April, July; Vol. 70 (1953) January; Vol. 69 (1952) January; Vol. 66 (1949) January, April; Vol. 65 (1948) January, October; Vol. 64 (1947) all; Vol. 63 (1946) all; Vol. 62 (1945) January; Vol. 57 (1940) January; Vol. 56 (1939) all; Vol. 54 (1937) all; Vol. 53 (1936) April, July, October; Vol. 47 (1930) January. Many earlier numbers are also needed.

If you have any of the specified issues, or older ones, consult with the Treasurer's office before disposing of them. Complete mimeographed lists have been prepared for the convenience of members who wish to arrange for the eventual transfer of *Auks* to the Union.

Wanted to Purchase

—BIRD BOOKS—

As well as books, periodicals and papers in
the other Natural History fields.

Recent Publications of the AOU

The Proceedings of the XIIIth International Ornithological Congress.

A two-volume work of more than 1,250 pages, handsomely bound in cloth and illustrated by a colored frontispiece. Contains 110 papers on birds presented or read by title at the most recent Congress. \$20.00 per two-volume set.

A Distributional Study of the Birds of British Honduras by Stephen M. Russell. No. 1 in a new series of ORNITHOLOGICAL MONOGRAPHS and the first comprehensive report in English on the birds of any Central American country in 26 years. Summarizes distribution, variation, breeding season, and ecological preferences. Regular price \$4.50. Price to AOU members \$3.60.

1964 Directory of AOU Members. Published as part of the October 1964 issue of THE AUK. Also offered for convenience of AOU members in separate form, with paper covers. Single copies, \$1.25. Two or more copies, \$1.00 each.

Members of the AOU who are associated with a college or university are urged to bring the *Proceedings* and *Ornithological Monographs* to the attention of the acquisitions department of their campus library. Because *Proceedings* of International Ornithological Congresses are published only every four years, each time under different auspices, in different countries, libraries often have no other ready means of learning when new offerings in the series become available.

Other publications of the AOU

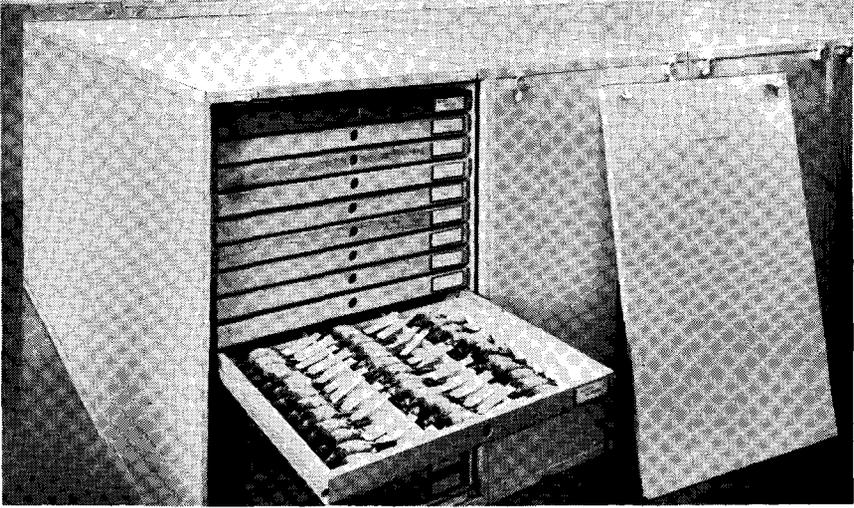

"Check-list of North American Birds," 1957, bound, 691 pp., \$8.00.

"Ten-year Index to The Auk 1941-1950," bound \$10.00, unbound \$8.00.

Other Ten-year Indexes to The Auk available as follows: 1876-1900, bound or unbound; 1901-1910, unbound; 1911-1920, bound or unbound; 1921-1930, unbound; 1931-1940, bound or unbound. Bound volumes \$5.00, unbound volumes \$4.00.

All AOU publications are sent postpaid.

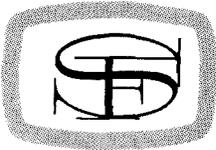

Order from: The Treasurer, American Ornithologists' Union, Museum of Zoology, Drawer MU, Louisiana State University, Baton Rouge, Louisiana 70803.

You Can Afford the Best!

A specimen case with quality. Check these features—

1. Air tight Buna N seals.
2. Double wall heavy steel construction with reinforcement between the wall.
3. Light-weight aluminum doors.
4. Construction so sturdy cases can be stacked three high.

THE AUK

A Quarterly Journal of Ornithology

ORGAN OF THE AMERICAN ORNITHOLOGISTS' UNION

THE AUK is edited at the Museum of Natural History, The University of Kansas, Lawrence, Kansas 66045, by the following staff:

Editor, ROBERT M. MENGEL; *Assistant Editor*, J. KNOX JONES, JR.

Editorial Assistants, GARY C. PACKARD and DENNIS M. POWER.

The Auk welcomes original articles and short notes, not published elsewhere, containing significant new knowledge about birds, or new interpretation of existing knowledge. Address all articles and notes intended for publication and all books intended for review to the editor.

Suggestions to contributors.—The efficient and economical transmission of knowledge by means of the printed word requires effective participation of author, editor, and printer. In order to facilitate the task of the printer, the editor should receive from authors MSS satisfying the following minimal requirements: *MSS should be typewritten, double-spaced (especially tables and "literature cited"), on one side of numbered sheets of standard (8½ × 11 in.) bond paper, with at least one inch margin all around. Tables (which should be unruled) and legends should be typed on separate sheets. Drawings should be in India ink on good board or drafting papers and lettered by lettering guide or the equivalent. Photographs should be clear, of good contrast, on glossy paper. Illustrations should allow (with particular regard to lettering) for reduction to ½ their original dimensions (final width will usually be 4¼ in.).*

Scientific and (if any) vernacular names of birds should be given upon first mention thereof and should follow the A. O. U. Check-list (1957) or the appropriate equivalent unless departures are explained and defended.

For bird weights and measurements, use metric units. Other measurements should be in the form usual to the discipline of the paper as practiced in the United States. The 24-hour clock and "continental" dating (e.g., 1 July 1858) are recommended.

Titles should be short and descriptive. MSS should follow the conventions of form observed in articles, general notes, and reviews in *The Auk*, with minor variations, since 1950. If more than 10 works are cited, references in text should relate to a terminal list of "literature cited" (see *Auk*, vols. 78 or 79 for form; *include no titles not cited*) except in general notes, where citation should normally be in text. Avoid footnotes. *Where critical matter is cited from longer papers, indicate the pertinent pages, e.g. "(Lack, 1947: 96-97)."* Citations in text should be parenthetical, e.g. "(D. Lack. *Darwin's finches*. Cambridge Univ. Press, 1947.)" or "(*Auk*, 79: 251, 1962)." *Verify all citations from original sources unless impossible, in which case so indicate.*

Articles more than 10 pp. long should include a summary that should not exceed 10 per cent of the length of the article.

For abbreviations and minor matters of form see recent issues of *The Auk*. The *Style manual for biological journals* (Washington, D. C., Amer. Inst. Biol. Sci. 1960) is generally useful also. In controversial matters of form *The Auk* frequently relies finally on the dicta of *A manual of style* (Chicago, Univ. Chicago Press, 1949).

Proofs of all articles and notes will be sent to authors. Reprints of articles, notes, and other items are to be paid for by the author. These must be ordered from The Allen Press on the blanks sent with the proof.
