

DEVELOPMENT OF  
SPECIES  
IDENTIFICATION  
IN BIRDS

*An Inquiry into the Prenatal De-  
terminants of Perception*

*Gilbert Gottlieb, North Carolina  
State University at Raleigh*

This study is devoted to an intensive investigation of the key elements necessary to evoke a sensory discriminative response in various species of ducklings and chicks and to an original interpretation of the macroscopic aspects of the development of species perception.

"Gottlieb's book is original, analytical and thorough. A masterpiece of behavioral study." (Dr. M. Konishi, *Princeton University*)

**AMERICAN BIRDS**

*National Audubon Society, 1130 Fifth Avenue, New York 10028*

John James Audubon's  
original "Birds of America"  
will be reprinted for  
the first time since 1838.

There will be 250 sets.

These will be (at last) a reprinting of the "Birds of America," in all their glory, in their original size. Audubon's originals were 435 plates (39½" x 26"), illustrating 1,065 life-size birds of some 489 species. They will be re-created (from the originals) with painstaking care—in up to 8 colors.

Sets will be numbered. They will

become available in six sections, the first (72 prints) in September, with succeeding sections to follow at 3-month intervals. The price will be \$4,500 before September, \$5,400 thereafter.

For a detailed prospectus, write Johnson Reprint Corporation, 111 Fifth Ave., New York, N.Y. 10003.

They will begin to arrive  
in September.

# THE AUK

A Quarterly Journal of Ornithology

ORGAN OF THE AMERICAN ORNITHOLOGISTS' UNION

THE AUK is edited at the Florida State Museum, University of Florida, Gainesville, Florida 32601, by the following staff:

*Editor*, OLIVER L. AUSTIN, JR.; *Assistant Editor*, FLORENCE A. PETTIS

*Associate Editors*, JOHN W. HARDY (Reviews) and GLEN E. WOOLFENDEN  
(Periodical Literature)

*The Auk* welcomes original articles and short notes, not published elsewhere, containing significant new knowledge about birds, or new interpretation of existing knowledge. Address all articles and notes intended for publication and all books intended for review to the editor. For longer articles (ca 10,000 words or over) a charge of \$50 per page is assessed for all printed pages above 20.

*Suggestions to contributors.*—Submit all MSS in duplicate. They must satisfy the following minimal requirements: MSS should be typewritten, double-spaced (especially tables and "literature cited"), on one side of numbered sheets of standard ( $8\frac{1}{2} \times 11$  in.) bond paper, with at least one inch margins all around. Tables (which should be unruled) and legends should be typed on separate sheets. Drawings should be in india ink on good board or drafting paper and lettered by lettering guide or the equivalent. Photographs should be clear, of good contrast, on glossy paper. Illustrations should allow (with particular regard to lettering) for reduction to their final width (usually  $4\frac{1}{3}$  in.). Illustrations larger than  $8\frac{1}{2} \times 11$  in. are not acceptable and should be reduced photographically to that size or smaller. Designate top of each illustration and identify (on the back with soft pencil) by author's name, title, and figure number.

Titles should be short and descriptive. MSS should follow the conventions of form observed in articles, general notes, and reviews in *The Auk*, with minor variations, since 1965. Avoid footnotes. If more than 5 works are cited, references in text should relate to a terminal list of "literature cited" (include no titles not cited). Where critical matter is cited from longer papers, indicate the pertinent pages, e.g. (Lack, 1947: 96-97). Citations in text should be parenthetical, e.g. (Lack, Darwin's finches, Cambridge, England, Cambridge Univ. Press, 1947: 96-97) or (Auk, 79: 208, 1962). Verify all citations from original sources unless impossible, in which case so indicate. For abbreviations in a terminal list of references, authors should use forms stipulated by the Style Manual for Biological Journals (Washington, D. C., Amer. Inst. Biol. Sci., 1964). In other matters of form *The Auk* frequently relies on the dicta of the GPO Style Manual.

For bird weights and measurements use metric units. Other measurements should be in the form usual to the discipline of the paper as practiced in the United States. The 24-hour clock (08:00 and 20:30) and "continental" dating (1 July 1968) are preferred. Scientific and (if any) vernacular names of birds should be given upon first mention thereof and should follow the A.O.U. Check-list (1957) or the appropriate equivalent unless departures are explained and defended. Articles more than 10 pages long should include a summary that should not exceed 10 per cent of the length of the article.

Proofs of all articles and notes will be sent to authors. Reprints of articles, notes, and other items are to be paid for by the author. These must be ordered from Allen Press Inc. on the blanks sent with the proof.
