ANNOUNCING

**THE BIRD LIFE OF TEXAS**

BY **Harry C. Oberholser**

Edited, with distribution maps and additional material  
BY **Edgar B. Kincaid, Jr.**

*With the assistance of John Rowlett and Suzanne Winckler*

**PAINTINGS BY Louis Agassiz Fuertes**

Preface by **Pat I. Nixon**

Foreword by **John W. Aldrich**

THE BIRD LIFE OF TEXAS is beautifully illustrated with thirty-six water colors and thirty-six black-and-white drawings by the celebrated American wildlife artist Louis Agassiz Fuertes. It provides the first detailed history and natural history of the state's bird life, and stands out on several counts:

- Survey of major bird habitats illustrated with 38 photographs.
- Complete species accounts.
- Distribution map for virtually every species—480 maps in all. Status and distribution for each bird current through winter of 1972–1973.
- Special section documents changes for each species that has shown marked alteration in status or distribution.
- Descriptions and measurements of birds are for most species the most thorough to appear in any bird book published in the Western Hemisphere.

At the turn of the century, Harry C. Oberholser, then a young ornithologist with the U.S. Biological Survey, began writing a survey of the birds of Texas. He had begun a monumental project—more than two thirds of the species known to occur in North America north of Mexico have been recorded in Texas. Oberholser's manuscript, which had reached an unwieldy three million words at the time of his death in 1963, has been carefully edited and updated by Edgar B. Kincaid, Jr., who has observed birds in the state for over forty years.

2 volumes, boxed, \$60.00

# THE AUK

## A Quarterly Journal of Ornithology

### ORGAN OF THE AMERICAN ORNITHOLOGISTS' UNION

THE AUK is edited at the Florida State Museum, University of Florida, Gainesville, Florida 32611, by the following staff:

*Editor*, OLIVER L. AUSTIN, JR.; *Assistant Editor*, FLORENCE A. PETTIS

*Associate Editors*, WALTER BOCK (Reviews), HERBERT W. KALE, II  
(Periodical Literature), and JAMES J. DINSMORE (Index)

THE AUK welcomes original articles and short notes, not published elsewhere, containing significant new knowledge about birds, or new interpretation of existing knowledge. Address all articles and notes intended for publication and all books intended for review to the editor. For longer articles (ca. 10,000 words or over) a charge for all printed pages above 20 is assessed at actual costs, currently \$51.00 per page.

**SUGGESTIONS TO CONTRIBUTORS.**—Submit all MSS *in duplicate*. They must satisfy the following minimal requirements: *MSS should be typewritten, double-spaced (especially tables and "literature cited"), on one side of numbered sheets of standard (8½ × 11 in.) bond paper, with at least 1-inch margins all around. Tables (which should be unruled) and figure legends should be typed on separate sheets. Drawings should be in india ink on good board or drafting paper and lettered by lettering guide or the equivalent. Photographs should be clear, of good contrast, on glossy paper. Illustrations should allow (with particular regard to lettering) for reduction to their final width (usually 4½ in.). Illustrations larger than 8½ × 11 in. are not acceptable and should be reduced photographically to that size or smaller. Designate top of each illustration and identify (on the back with soft pencil) by author's name, title, and figure number. Submit a duplicate or readable copy of each figure for use of reviewers.*

Titles should be short and descriptive. MSS should follow the conventions of form observed in articles, general notes, and reviews in THE AUK, with minor variations, since 1973. Avoid footnotes. If more than five works are cited, references in text should relate to a terminal list of "literature cited" (*include no titles not cited*). Where critical matter is cited from longer works, indicate the pertinent pages, e.g. (Lack 1947: 96–97). Citations in text should be parenthetical, e.g. (Austin 1971, Families of birds, New York, Golden Press, pp. 44–49) or (Sauer 1972, Auk 39: 717). *Verify all citations from original sources unless impossible, in which case so indicate.* For spellings, abbreviations, and general conventions of form and style, Auk follows WNI, third ed. (1967); the Columbia Lippincott Gazetteer (1962); the CBE Style Manual, third ed. (1972); and the GPO Style Manual (1973).

For bird weights and measurements use metric units. Other measurements should be in the form usual to the discipline of the paper as practiced in the United States. The 24-hour clock (0800 and 2030) and "continental" dating (1 July 1971) are preferred. Scientific and (if any) vernacular names of birds should be given upon first mention thereof and should follow the A.O.U. Check-list, fifth ed. (1957), including the 32nd Supplement (1973, Auk 90: 411–419), or the appropriate equivalent unless departures are explained and defended. Articles more than 10 pages long should include a summary that should not exceed 10% of the length of the article.

Proofs of all articles and notes will be sent to authors. Reprints of articles, notes, and other items are to be paid for by the author. These must be ordered from Allen Press Inc. on the blanks sent with the proof.
