THE SWALLOW

Hirundo rustica

Why do Swallows refuse to migrate down wind?
How do Swallows find their way home after being transported a distance of several hundred miles?
How do Swallows distribute their entire population evenly over the whole of their immensely wide breeding range?
Why are Swallows, which are going to migrate the longest distances, among the last to leave their winter quarters?

These are among the many questions answered for the first time by COLLINGWOOD INGRAM in his fascinating book entitled

THE MIGRATION OF THE SWALLOW

Available from H. F. & G. Witherby Ltd., 5 Plantain Place, Crosby Row, London, SE1 1YN, England. Price \$4.25, +pp40c.

**THERE WILL BE NO FINER ORNITHOLOGICAL TOUR IN 1975 THAN
BIRD BONANZAS' "TOUR OF THE YEAR" TO SOUTH AFRICA.**

Our leader has more field experience and greater knowledge of the birds of South Africa than any other person.

Our itinerary will cover a spectacular assortment of fascinating habitats and offer opportunities to see vast numbers of mammals and magnificent natural scenery as well as a phenomenal number of birds.

The size of the group will be limited to the optimum number to find the greatest possible number of birds and provide every participant with the chance to see them all.

Areas visited will include Victoria Falls, Wankie National Park, Kruger National Park, Ndumu, Royal Natal National Park, Tsitsikama, Kalahari Gemsbok National Park and the Etosha Pan.

Though all of our tours are known for outstanding birding, our "Tour of the Year" is the finest birding tour anywhere in the world. If you would like additional information, send the following coupon.

Many birders describe their trips with BIRD BONANZAS as the highlight of their birding experiences:

"To date, birding with you remains the highlight of my birding career. My warmest appreciation for that memorable and wonderful experience."

Mrs. Frances Nubel, Minneapolis, Minnesota

"... it was the greatest vacation I've ever had."

Mr. Bruce Peterson, Middlebury, Vermont

"I saw more species of birds than I ever imagined possible."

Mr. Roger Kniss, San Francisco, California

"The trip was the most rewarding birding trip I have ever taken, both in terms of areas covered and in the exciting birds seen."

Mrs. Ruth Carter, Minneapolis, Minnesota

"I've been on several organized tours in the past, and yours far and away surpassed the others for showing the birds and showing them well."

Dr. Robert Pittell, Ft. Lauderdale, Florida

"The trip was the highlight of my birding experiences, and being with a small group of birders, all interested in the same thing, made it possible for nearly every individual to see nearly every species and enabled best use of every available moment."

Mr. John Danzenbaker, Linwood, New Jersey

"The intensive birding and being with people who enjoy it so much add up to the single best birding experience of my life."

Steve West, Balboa, Panama Canal Zone

Maybe you ought to try a BIRD BONANZAS tour and see why.

THE AUK

A Quarterly Journal of Ornithology

ORGAN OF THE AMERICAN ORNITHOLOGISTS' UNION

THE AUK is edited at the Florida State Museum, University of Florida, Gainesville, Florida 32611, by the following staff:

Editor, OLIVER L. AUSTIN, JR.; *Assistant Editor*, FLORENCE A. PETTIS

Associate Editors, WALTER BOCK (Reviews), HERBERT W. KALE, II (Periodical Literature), and JAMES J. DINSMORE (Index)

THE AUK welcomes original articles and short notes, not published elsewhere, containing significant new knowledge about birds, or new interpretation of existing knowledge. Address all articles and notes intended for publication and all books intended for review to the editor. For longer articles (ca. 8000 words or over) a charge for all printed pages above 16 is assessed at actual costs, currently \$51.00 per page.

SUGGESTIONS TO CONTRIBUTORS.—Submit all MSS *in duplicate*. They must satisfy the following minimal requirements: *MSS should be typewritten, double-spaced (especially tables and "literature cited"), on one side of numbered sheets of standard (8½ × 11 in.) bond paper, with at least 1-inch margins all around. Tables (which should be unruled) and figure legends should be typed on separate sheets. Drawings should be in india ink on good board or drafting paper and lettered by lettering guide or the equivalent. Photographs should be clear, of good contrast, on glossy paper. Illustrations should allow (with particular regard to lettering) for reduction to their final width (usually 4½ in.). Illustrations larger than 8½ × 11 in. are not acceptable and should be reduced photographically to that size or smaller. Designate top of each illustration and identify (on the back with soft pencil) by author's name, title, and figure number. Submit a duplicate or readable copy of each figure for use of reviewers.*

Titles should be short and descriptive. MSS should follow the conventions of form observed in articles, general notes, and reviews in THE AUK, with minor variations, since 1973. Avoid footnotes. If more than five works are cited, references in text should relate to a terminal list of "literature cited" (*include no titles not cited*). Where critical matter is cited from longer works, indicate the pertinent pages, e.g. (Lack 1947: 96-97). Citations in text should be parenthetical, e.g. (Austin 1971, Families of birds, New York, Golden Press, pp. 44-49) or (Sauer 1972, Auk 39: 717). *Verify all citations from original sources unless impossible, in which case so indicate.* For spellings, abbreviations, and general conventions of form and style, Auk follows WNI, third ed. (1967); the Columbia Lippincott Gazetteer (1962); the CBE Style Manual, third ed. (1972); and the GPO Style Manual (1973).

For bird weights and measurements use metric units. Other measurements should be in the form usual to the discipline of the paper as practiced in the United States. The 24-hour clock (0800 and 2030) and "continental" dating (1 July 1971) are preferred. Scientific and (if any) vernacular names of birds should be given upon first mention thereof and should follow the A.O.U. Check-list, fifth ed. (1957), including the 32nd Supplement (1973, Auk 90: 411-419), or the appropriate equivalent unless departures are explained and defended. Articles more than 10 pages long should include a summary that should not exceed 10% of the length of the article.

Proofs of all articles and notes will be sent to authors. Reprints of articles, notes, and other items are to be paid for by the author. These must be ordered from Allen Press Inc. on the blanks sent with the proof.
