The **Standing Committee on Ornithological Nomenclature** of the International Ornithological Committee has prepared a **list of established names of avian family-group taxa** (subtribes to superfamilies) and their synonyms as the first step in the process of writing an application to the International Commission on Zoological Nomenclature to stabilize the use of these names. The SCON wishes to obtain input from all interested ornithologists and zoologists on this list of avian family-group names and its proposed application to the ICZN. The list is available to interested ornithologists and zoologists who are willing to examine it carefully and provide the SCON with corrections, additions, comments, and suggestions. This list of avian family-group names is unofficial and should not be used for any purposes other than that just mentioned. Copies of the list may be obtained by writing to **Professor Walter J. Bock, Chairperson SCON, Department of Biological Sciences, Columbia University, New York, NY 10026 USA.**

The **annual meeting of the Raptor Research Foundation** will be held **28-31 October 1987** in Boise, Idaho. For information contact **R. Howard, Chairperson, U.S. Fish and Wildlife Service, 4696 Overland Road, Room 576, Boise, Idaho 83705.**

The **11th Annual Meeting of the Colonial Waterbird Society** will be held at the Red Oak Inn in Thunder Bay, Ontario, **10-13 September 1987.** Lynn Hauta and John P. Ryder are in charge of local arrangements. Announcements of the schedule and a call for papers will be mailed to members at a later date.

The **Western Raptor Management Symposium and Workshop**, coorganized by the National Wildlife Federation and Idaho chapter of The Wildlife Society, will be held **26-28 October 1987** in Boise, Idaho. The symposium will feature technical paper sessions on the status of western raptors and their habitats, land-use activities affecting raptors, workshops, and a poster session. For information contact the **National Wildlife Federation, Institute for Wildlife Research, Department 162, 1412 Sixteenth Street, N.W., Washington, D.C. 20036-2266**, or call (703) 790-4264.

REVIEWERS FOR *THE AUK*, 1986

The prepublication review process is essential to the maintenance of high scientific standards in a journal. The efforts of the individuals who contributed reviews, both singly and together, are remarkable. Each has been thanked personally, but deserves this public acknowledgment. The memorials for Volume 103 were solicited and managed by C. Stuart Houston.

Individuals who contributed two or more manuscript reviews are signified with an asterisk.

gram for graduate education in disciplines central to resource management and conservation. This program should dramatically increase the number of students from both Latin and non-Latin countries conducting research in Central and South America. The scholarships should also, if necessary, provide the training for Latin American students at the educational institutions of the developed countries. The long-term benefits of such assistance will surely outweigh those provided by the "aid," mostly short-term, currently provided by developed nations.

This commentary was written while I was a University of Calgary Postdoctoral Fellow.
