PLENUM BOOKS
**FOR THE
ORNITHOLOGIST**

*Highly recommended**

**CURRENT
ORNITHOLOGY**

Volume 7

edited by **Dennis M. Power**

*From a review of a previous
volume:*

"Authoritative, well-documented review articles that will appeal to professional ornithologists, especially academic and museum staff, as well as to research biologists in general. . . . Highly recommended for all research ornithology and large academic biological collections."

— *Choice**

Contents include population declines in migratory birds in eastern North America, avian energy storage, survival rates and their relationship to life-history traits in some common British birds, food storage in birds: an evolutionary perspective, non-breeding social organization in *Parus*, age-specific variation in reproductive performance of birds, the evolution of colonality, and the ecology and evolution of extra-pair copulations in birds.

**PHYSIOLOGY OF
COLD ADAPTATION
IN BIRDS**

edited by **Claus Bech** and
Randi Eidsmo Reinertsen

The first book published which deals solely with thermoregulation in birds, *Physiology of Cold Adaptation in Birds* examines the unique mechanisms utilized by birds to regulate their body temperature within strictly defined limits. Topics covered in this volume include central mechanisms of regulating body temperature; the nature of effector mechanisms, including shivering and non-shivering thermogenesis; and factors initiating changes in the effector mechanisms. Volume 173 in the NATO ASI Series: Series A: Life Sciences.

Lovebirds, Cockatiels, Budgerigars: BEHAVIOR & EVOLUTION

by J. Lee Kavanau, UCLA

- ▶...highly informative volume...actually several books under one cover...[the author has] enormous experience with the raising of these birds....presenting a great deal of interesting information, much of it new. Prof. Ernst Mayr, Harvard Univ.
- ▶...unique, exhaustive laboratory studies of..behavior....insightful and remarkably comprehensive scenario of..origin & evolution of birds &..roots of their behaviors....must reading for all interested in avian behavior & reproduction....wealth of information & concepts that will be of interest to all evolutionists. Prof. E. C. Olson, UCLA
- ▶...enormous amount of information...very important contribution to..study of behavior of parrot birds, about which so little is known... Prof. K. Immelmann, Univ. Bielefeld
- ▶...monumental in..scope...much fascinating reading...many intriguing subjects....enormous project....excellent reference for..experimental behavior or evolutionary science....looking forward to..in-depth study &..to apply [the author's] concepts to...aviculture and avian veterinary medicine. G. J. Harrison, DVM, Bird World, Nov., 1987
- ▶...offers an interesting synthesis of avian evolution, in general, tying together [the author's] views on evolutionary sequences involved in thermoregulation, insulation, egg care, care of young, mode of feeding, and degree of arboreality. Auk, July, 1988
- ▶.....scope..is impressive....information conveyed..is almost overwhelming....comprehensive discussions on..behavior, morphology, physiology, ecology, biogeography, and evolution of all birds.....extremely detailed discussion of the avian brain.....fascinating ideas on the evolution of bird reproductive behavior....should provide much fuel for thought & some debate among students of avian evolution.....detailed descriptions of captive bird breeding and experimentation provide numerous ideas for..research on captive birds..... a must for anyone seriously interested in avian evolution... Wilson Bull., Sept., 1989

March, 1987, xxvi + 1,001 pp., 7 indices, 1,455 refs., \$49.95
Prepay ck. or m/o. Add \$4 p/h (\$6 outside U.S.) + \$3.25 s/t in Calif.

 **AIR NEW ZEALAND**

INVITES YOU TO CHRISTCHURCH
for the 20th International Ornithological Congress
2-9 December 1990

The IOC logo bird is flightless, but that
doesn't mean you have to be!

**FLY WITH US . . . and enjoy the excitement
and bird life of beautiful New Zealand**

Air New Zealand is the AOU's official carrier to the Christchurch IOC,
and is proud of its contribution to the AOU's SecondCentury Campaign.

We suggest you book your flight at least 6 months in advance.
Contact your local travel agent or Air New Zealand,
(800) 262-1234, soon!

How many years would it take to replace your collection?
Safe-guard your valuable specimens
PERMANENT SPECIMEN PRESERVATION

with *Lane* **ZOOLOGY AND ORNITHOLOGY**
SPECIMEN CABINETS

Double Wall Construction

Pest-Proof and Air Tight Seal

Fumigant Compartment

- Double Wall Construction
- Pest-Proof and Air Tight Seal
- Double Panel Door
- Lift-Off Safe Type Hinge
- Fumigant Compartment
- 3-Point Locking Mechanism
- Front and Back Air Tight Seals
- Specimen Trays of Aluminum and Masonite. Lightweight, sturdy and easy to handle.

Skin Case #201 (illustrated)
 Holds large trays for larger specimens.

Skin Case # 202 (not illustrated)
 Divided for half-size trays for smaller specimens.

- No. 36. *Neotropical Ornithology*. P. A. Buckley et al., Eds. xi + 1,041 pp., 8 color plates. 1985. \$70.00.
- No. 37. *Avian Monogamy*. P. A. Gowaty and D. W. Mock, Eds. vi + 121 pp. 1985. \$11.00 (\$9.00).
- No. 38. *An Analysis of Physical, Physiological, and Optical Aspects of Avian Coloration with Emphasis on Wood-Warblers*. E. H. Burtt, Jr. x + 122 pp. 1986. \$15.00 (\$12.50).
- No. 39. *The Lingual Apparatus of the African Grey Parrot, Psittacus erithacus Linné (Aves: Psittacidae): Description and Theoretical Mechanical Analysis*. D. G. Homberger. xii + 236 pp. 1986. \$25.00 (\$20.00).
- No. 40. *Patterns and Evolutionary Significance of Geographic Variation in the Schistacea Group of the Fox Sparrow (Passerella iliaca)*. R. M. Zink. viii + 119 pp. 1986. \$15.00 (\$12.50).
- No. 41. *Hindlimb Myology and Evolution of the Old World Suboscine Passerine Birds (Acanthittidae, Pittidae, Philepittidae, Eurylaimidae)*. Robert J. Raikow. viii + 81 pp. 1987. \$12.50 (\$9.50).
- No. 42. *Speciation and Geographic Variation in Black-tailed Gnatcatchers*. Jonathan L. Atwood. vii + 74 pp. 1988. \$10.00 (\$8.00).
- No. 43. *A Distributional Survey of the Birds of the Mexican State of Oaxaca*. Laurence C. Binford. viii + 418 pp. 1989. \$40.00 (\$36.00).

Order from: Max C. Thompson, Assistant to the Treasurer A.O.U., Department of Biology, Southwestern College, 100 College Street, Winfield, KS 67156. Orders must be prepaid, in U.S. dollars; add 5 percent (minimum \$2.00) handling and shipping charge. Make checks payable to American Ornithologists' Union. Prices in parentheses are for A.O.U. members.

THE AUK

A Quarterly Journal of Ornithology

PUBLISHED BY THE AMERICAN ORNITHOLOGISTS' UNION

Editor: ALAN H. BRUSH, Department of Physiology and Neurobiology, University of Connecticut, Storrs, Connecticut 06268.

Copy Editor: GAIL W. HUNTER

Associate Editors: FRED E. LOHRER AND JOHN L. TRAPP (Recent Ornithological Literature), M. ROSS LEIN AND BRUCE M. BEEHLER (Book Reviews)

THE AUK welcomes original reports dealing with the biology of birds, emphasizing the documentation, analysis, and interpretation of laboratory and field studies, theoretical or methodological developments, or reviews of existing information or ideas. Contributions are encouraged from throughout the world, but must be written in English.

SUGGESTIONS TO CONTRIBUTORS. Submit the typewritten original and two copies of the text, tables, and all other material to the Editor. Every manuscript must be accompanied by a **letter of transmittal** (1988, *Auk* 105: 803). Three copies of illustrations should be submitted. *All typewritten material must be double-spaced* on one side of numbered 8½ × 11 inch (21½ × 28 cm) good quality bond paper, with at least 1 inch (2½ cm) margins. Originals typed on erasable, light weight, or mimeo bond will not be considered, but copies may be clear reproductions. Number pages throughout the Literature Cited. Avoid footnotes. The style of manuscripts should conform to general usage in recent issues. A cover page should contain the full title, a shortened version of the title (not to exceed 35 characters in length) for use as a running head, and your address at the time the research was conducted. Your present address, if different, should be given at the bottom of the first text page. The cover page should include the name and full address of the individual to whom proof is to be sent.

Each article should be preceded by an Abstract not exceeding 5% of the length of the paper. The Abstract should recapitulate the findings of the paper, not describe the work done. Acknowledgments should follow the text and precede the Literature Cited. Scientific and English names of birds always should be given where first mentioned in the text, and should follow *The A.O.U. Checklist of North American Birds* and supplements or the appropriate equivalent unless departures are explained and defended. SI metric units should be used in all measurements. In general, abbreviations of statistical terms and mensural units should conform with the Council of Biology Editors' *CBE Style Manual*, 5th ed. Use the 24-hour clock (0800 and 2030) and "continental" dating (1 July 1971).

Tables, which must not duplicate material in either the text or illustrations, are typewritten (**double-spaced throughout!**) separately from the text. Each table should contain a short but complete heading, and must not contain vertical rulings. *Illustrations* (including labels of coordinates) should be on 8½ × 11 inch (21½ × 28 cm) sheets, and must be mailed flat. The name of the author and the figure number should be penciled on the *back* of each figure. Legends should be typed consecutively (double-spaced) on a separate page. Drawings should be drafted with undiluted india ink, and be large enough to permit ½ to ⅓ reduction to the size that they will appear in print. Graphs may be drafted on coordinate paper ruled with light *blue* lines; do *not* use coordinate paper ruled with *green* lines. Use mechanical lettering, pressure transfer letters, or calligraphy; typewritten lettering is not acceptable. Lettering should be large enough to be easily readable after 70% reduction of the figure, but not overly large. Lettering style should be uniform among all figures for a manuscript, as should the size of lettering following reduction. Photographs should be glossy prints of good contrast and sharpness, and should be approximately the same size as they will appear in print. Letters and arrows on photographs are best applied by pressure-sensitive materials. The *Auk* is published in a double-column format; give careful attention to designing your tables and illustrations accordingly.

Literature citations for **all** manuscripts are listed (double-spaced!) in a Literature Cited section following the text and Acknowledgments. Text citations should include author and year (e.g. Darwin 1858), or, if more than two authors are involved, the first author and year (Jones et al. 1947). If critical matter is cited or quoted directly from longer works, indicate the pertinent pages (e.g. MacArthur 1972: 204). Citations of two or more works on the same topic should be cited in chronological order (e.g. Meanley 1971, Dyer 1975). For abbreviations and forms of titles of serial publications, follow the BIOSIS List of Serials. Consult recent issues of *The Auk* and the *CBE Style Manual* for additional details.

A more detailed set of instructions for contributors appeared in *The Auk*, Vol. 105, No. 1 (January 1988), copies of which are available from the Editor.

Bioacousticians

Your workstation is here.

The DSP Sona-Graph™, model 5500 is a signal analysis workstation designed for the acquisition, processing and display of time-varying biological signals. The 5500 acquires, analyzes and displays signals in real-time with a continuous scrolling display, combining the features of a real-time spectrograph, a high-speed dual channel FFT and a computer-based data acquisition system.

It's a "wish list" workstation for the bioacoustician. The 5500 includes digital anti-aliasing filters, 16 bit A/D and 1.5 Mbytes of ROM storage for signal processing programs. Designed with you in mind, the 5500 provides up to 8 Mbytes of signal storage (one or two signals), on-screen cursors, extensive editing, high fidelity playback and computer interface capabilities.

- ✓ Two channel simultaneous display
- ✓ Real-time to 32 kHz
- ✓ Continuous thermal printing
- ✓ On-screen noise reduction feature
- ✓ High resolution color / grey scale display
- ✓ High fidelity playback and editing

To find out more about using the DSP Sona-Graph in your work, call **Robert McClurkin** at 800-289-5297 or write to the address listed below.
