

**Feral Pigeons**

Richard F. Johnston and Marián Janiga

This definitive monograph focuses on the population, biology, and behavioral ecology of feral pigeons, a familiar and abundant yet seldom studied bird.

1995 336 pp.; 71 illus. \$95.00

**Handbook of the Birds of India and Pakistan Together With Those of Bangladesh, Bhutan and Sri Lanka**

**Volume VI: Cuckoo-Shrikes to Babaxes**

*Second Edition*

Salim Ali and S. Dillon Ripley

This thoroughly revised second edition includes the latest information on distribution and offers expert accounts on eight newly introduced and six recently amalgamated species.

June 1995 8 illus. \$19.95

**Bird Migration**

**A General Survey**

Peter Berthold

"The omission of this book would leave any study of bird migration seriously lacking."

—*Audubon Naturalist Society.*

(*Oxford Ornithology Series 3*)

1994 256 pp.; 50 illus.

paper \$26.50/cloth \$52.50

**The Birds of Singapore**

Clive Briffett

"Anyone birding in Singapore will find this guide essential. Highly recommended."

—*Wildlife Activist.*

1994 146 pp.; 154 illus. \$29.95

**Handbook of the Birds of Europe, the Middle East, and North Africa**

**The Birds of the Western Palearctic**

**Volume VIII: Crows to Finches**

Edited by Stanley Cramp, C. M. Perrins and Duncan J. Brooks

Contains 73 comprehensive species descriptions, with contributions from an internationally recognized team of experts.

1994 956 pp.; 39 illus. \$150.00

**The Snow Geese of La Pérouse Bay**

**Natural Selection in the Wild**

Fred Cooke, Robert F. Rockwell and David B. Lank

This book brings together the results from one of the most significant long-term studies of birds in the late twentieth century.

(*Oxford Ornithology Series 4*)

1995 320 pp.; 70 illus. \$62.00

**Handbook of the Birds of Europe, the Middle East, and North Africa**

**The Birds of the Western Palearctic**

**Volume IX: Buntings and**

**New World Warblers**

Edited by Stanley Cramp,

C. M. Perrins and Duncan J. Brooks

Contains 61 comprehensive species descriptions, with sections devoted to field characteristics, habitat, distribution, mortality, population, movements, food, social patterns and behavior, breeding, voice, plumages, moults, measurements, weights, structure, and geographical variation.

1994 522 pp.; 20 illus. \$150.00

**A Guide to the Birds of Mexico and Northern Central America**

Steve N.G. Howell and Sophie Webb

"Everyone interested in neotropical birds should own this book for its authoritative text and outstanding field identification plates."—Albert Earl Gilbert, Past President, Society of Animal Artists.

1995 1010 pp.; 115 illus.

paper \$39.95/cloth \$75.00

**Sexual Selection and the Barn Swallow**

Anders Pape Møller

"Møller uses barn swallows to examine virtually every important question in evolutionary biology...losing no chance to turn the smallest piece of information into a test of a hypothesis."—*Science.*

(*Oxford Series in Ecology and Evolution*)

1994 376 pp.; 115 illus.

paper \$24.95/cloth \$55.00

**The Megapodes**

Darryl N. Jones, René W. R. J. Dekker and Cees S. Roselaar

Each account is based on the best literature available, the authors' own field research, and information collected from the distinguished efforts of the Megapode Specialist Group.

(*Bird Families of the World 3*)

August 1995 292 pp.; 46 illus. \$60.00

**The Hombills**

**Bucerotiformes**

Alan Kemp

Offers an overview of the family as a whole as well as species accounts, each of which contains a complete description of the bird in its natural state.

(*Bird Families of the World 1*)

1995 352 pp.; 110 illus. \$60.00

**Handbook of Australian, New Zealand and Antarctic Birds**

**Volume 2: Raptors to Lapwings**

Edited by Stephen Marchant and P. J. Higgins

"Publication of the second volume of this landmark ornithological work establishes this series as one of the world's genuinely great contributions to ornithological literature."

—*Wildlife Activist.*

1994 1048 pp.; 220 illus. \$295.00

**Penguins of the World**

Pauline Reilly

Dispels countless myths about penguins and offers readers an engaging picture of this majestic bird.

1994 184 pp.; 32 illus. paper \$16.95

**The Penguins**

Tony D. Williams

This authoritative guide provides an overview of penguins, describing their origins and evolution, distribution, breeding biology and moult, foraging ecology, behavior, and conservation.

(*Bird Families of the World 2*)

1995 312 pp.; 69 illus. \$60.00

## BIRD TRAPPING AND BIRD BANDING

*A Handbook for Trapping Methods  
All Over the World*

**HANS BUB**

Translated by  
**Frances Hamerstrom  
and Karin Wuertz-Schaefer**

*NEW IN PAPER!*

**456 b&w illustrations  
\$32.50 paper**

*At bookstores, or call (607) 277-2211*

"[This] edition is the most detailed summary of methods of catching birds that has yet been published. Each of the 20 chapters deals with a specific kind of trap or specialized trapping situation."

—*The Auk*

"The importance of this work to banders comes in its extensive, detailed descriptions of various traps and nets and their use. Bub has amassed an exhaustive list of approximately 200 capture techniques from around the world. . . . A valuable source of information [which] deserves a place in every bander's library."

—*North American Bird Bander*

UNIVERSITY OF CAPE TOWN

## Dept of Zoology:

**Director: Percy FitzPatrick Institute of African Ornithology**

We invite applications for the above tenured position which is available at the level of full Professor as from 1 July 1996.

As the successful candidate, you will be expected to provide educational and research leadership in modern approaches to Avian Biology, particularly studies of living birds. You should have a proven record of internationally recognised scholarship and a commitment to stimulate research and postgraduate studies. You should also possess strong administrative and managerial skills, including the ability to attract outside funding to the Institute; to participate in undergraduate teaching and forge cross-disciplinary and cross-institutional linkages.

The FitzPatrick Institute is the premier ornithological research institute in the Southern Hemisphere and is dedicated to postgraduate studies. No particular field of Avian Biology is specified, but the Institute has strong interests in conservation biology, population dynamics, ecology, behaviour, evolution and the sustainable and economic use of birds. Expertise in any of these fields would be a recommendation.

The remuneration package includes attractive staff benefits such as a 13th cheque, a generous contribution to medical aid costs, non-contributory retirement funding, a car scheme and a housing subsidy in certain circumstances. Details are available on request.

Please send your curriculum vitae together with the names, addresses, telephone and fax numbers of three contactable referees to the Appointments Officer (Ref: AUK01), Human Resource Management Department, University of Cape Town, Rondebosch 7700, South Africa. Telephone +27 21 650-2220; fax +27 21 650-2138; e-mail: perapp1@bremner.uct.ac.za for further information. The closing date for applications is 31 January 1996, but the post will remain open until filled.

The University of Cape Town is committed to policies of equal opportunity and affirmative action which are essential to its mission of promoting critical inquiry and scholarship.

- No. 45 & 46. *Descriptions of Thirty-two New Species of Birds from the Hawaiian Islands. Part I. Non-Passeriformes* (S. L. Olson and H. F. James); *Part II. Passeriformes* (H. F. James and S. L. Olson). Bound as one volume. 176 pp. 1991. \$25.00 (\$22.50).
- No. 47. *Parent-Offspring Conflict and its Resolution in the European Starling*. Elizabeth Litovich and Harry W. Power. 71 pp. 1992. \$11.70 (\$10.50).

Order from: **Max C. Thompson**, Assistant to the Treasurer A.O.U., Department of Biology, Southwestern College, 100 College Street, Winfield, KS 67156. Orders must be **prepaid**, in U.S. dollars; add **5 percent** (minimum \$2.00 U.S., \$4.00 all other countries) handling and shipping charge in U.S., and **20 percent** (minimum \$3.00) for all other countries. Make checks payable to American Ornithologists' Union. Prices in parentheses are for **A.O.U. members**.

## A Quarterly Journal of Ornithology PUBLISHED BY THE AMERICAN ORNITHOLOGISTS' UNION

*Editor:* GARY D. SCHNELL, *The Auk*, Department of Zoology, Sutton Hall, 625 Elm Avenue, University of Oklahoma, Norman, Oklahoma 73019, USA. Telephone (405) 325-2784. FAX (405) 325-7504. E-mail gschnell@uoknor.edu.

*Editor-elect:* THOMAS E. MARTIN (see Announcements).

*Managing Editor:* KENT E. THOMPSON.

*Associate Editor for Book Reviews:* ROBERT M. ZINK, Bell Museum of Natural History, 100 Ecology Building, University of Minnesota, St. Paul, Minnesota 55108, USA (forward books for review directly to this address).

*The Auk* welcomes original reports on the biology of birds. Appropriate topics include the documentation, analysis, and interpretation of laboratory and field studies, theoretical or methodological developments, and reviews of information or ideas. Contributions written in English are encouraged from throughout the world.

*Manuscript preparation.*—Submit three copies of each manuscript, complete with tables, figure captions, and figures (retain original figures). **Double-space all written material** (including tables and figure legends) on standard-sized stationery sheets. Number pages through the Literature Cited. Do not hyphenate words at the ends of typewritten lines. Type tables separately from the text; type figure captions consecutively on a separate page. The manuscript should conform to general usage in recent issues. The title page (numbered) should contain full title, and authors' names and addresses at the time of the research. The present address, if different, should be indicated as a footnote. The title page also includes running heads (<36 characters), and the name and mailing address of the individual to whom proofs should be sent.

An Abstract (<5% of paper length) should precede each regular article. It should summarize important premises, recapitulate findings, and give conclusions. Text citations should include the author and year (e.g. Darwin 1858, Wolter and Hunter 1968, Mayr et al. 1989); multiple citations should be arranged chronologically. Citations of specific page numbers, tables, or figures may be appropriate in certain situations (e.g. Diamond 1991:465–466, Zink et al. 1991:fig. 1, Dawson and Mannan 1991:table 6). Acknowledgments precede the Literature Cited. Title abbreviations of serial publications follow the International Serial Data System (ISDS) as indicated in *Serial Sources for the BIOSIS Previews Database* (1994, BIOSIS, Philadelphia), which is provided with *Biological Abstracts*. Scientific and English names of birds are given at first mention and follow the AOU's *Check-list of North American Birds* (1983) and its supplements. Measurements (and their designated abbreviations) are to be in SI units (see B. N. Taylor [Ed.], 1991, *The international system of units [SI]*, NIST Spec. Publ. 330, National Institute of Standards and Technology, U.S. Dep. Commerce, U.S. Government Printing Office, Washington, D.C.). In general, abbreviations of statistical terms conform to the sixth edition of *Scientific Style and Format: The CBE Manual for Authors, Editors, and Publishers* (1994, Cambridge University Press, New York). Use continental dating (e.g. 29 September 1990), the 24-hour clock (e.g. 0800 and 2035), and standard time (not daylight savings time).

Tables and figures should not duplicate material in the text or in each other. Each table requires a short heading; give particular attention to the form of table boxheads and do not include vertical rules. Illustrations should be prepared for one- or two-column width, keeping in mind the size of the *Auk*. The style of figures should be uniform. Helvetica or a similar sans serif style of type is recommended; typical typewriter lettering is unacceptable on figures.

After a paper has been accepted for publication, original figures and the original plus one copy of the manuscript (revised if necessary) are to be sent to the Editor. Illustrations in a large format are not desirable, since they are easily damaged or misplaced; if possible, original illustrations or high-quality reproductions should be no larger than standard-sized stationery sheets. On the back, each original illustration should have the figure number, author name, journal name, and an indication of the top of the figure. Drawings should be on good-quality paper and allow for about 20% reduction. Photographs should be glossy prints of high quality and approximately of the size they are to appear in print. Color figures will be considered as figure plates or a frontispiece.

*Proofs, reprints, and charges.*—Authors will receive page proofs for approval, along with the original typescript. Both must be returned within 48 h to the editorial office to avoid publication delays. A reprint order form will be sent with proofs; reprints are billed following the printer's current cost schedule. Because changes in proofs are expensive, authors should not expect to make major modifications in their work at this stage. Excessive alterations (i.e. more than about one line reset per two printed pages) in proofs will be charged to the author at the rate of \$3.00 per reset line. Authors should keep the Editor informed of address changes, so proofs will not be delayed. The AOU requests that authors, if possible, bear part or all of the cost of publishing their papers when grant, institutional, or personal funds are available for the purpose. Current costs per printed page are \$75; a minimum contribution of \$38 per page is recommended, but the AOU is pleased to receive any payment considered appropriate. Authors who do not have access to publication funds may request a waiver of this payment.
