The Birds of Washington

By WM. LEON DAWSON, A. M., M. A. O. U., M. G. O. G., of Seattle, and
JOHN HOOPER BOWLES, M. G. O. G., of Tacoma.

The Pioneer Bird Book of the Pacific Northwest

A complete scientific and popular account of the 375 species of birds found in the State of Washington. Superbly illustrated from photographs by Messrs. Dawson, Finley, Bohlman, Wright, Merrill, and others; and with 40 drawings in the text by Allan Brooks, of British Columbia. More than 400 illustrations in the Original Edition; more than 450 in the Imperial Edition.

Complete in Two Volumes--900 Pages

Of Dawson's "Birds of Ohio" Chapman said: "The most attractive and valuable work on the birds of a single state which has yet appeared."

"The Birds of Ohio" was prepared for press in a single year. More than four years have been consumed in the exclusive preparation of "The Birds of Washington".

SIX SOLID REASONS why members of the Cooper Ornithological Club should subscribe for this work.

First: It is born of the soil. It is of the West, western. Mr. Dawson dates his residence in Washington from 1885.

Second: It describes the birds of a hitherto neglected region, the Pacific Northwest embracing, as it does, more than one-third of the North American *ornis*.

Third: It presents in generous measure the life histories of birds which winter in California.

Fourth: It is not a scientific re-hash of familiar facts, but embodies original research in a new field.

Fifth: The text is written in a vivid, fascinating style, and will constitute a literature as well as an encyclopedia of western bird-lore.

Sixth: The work will be the most splendidly illustrated of any American bird-book to date.

Four Grades, Eight Editions, Eleven Bindings:

The Original Edition at \$10, \$12, \$15 (according to binding); the Large Paper Edition, with special photogravures, at \$25; the De Luxe Editions ("Patrons'", "Artemesia", "Tacoma", and "V. & V."), with special illustrations and luxurious bindings, at \$50; the Imperial Edition, De Grand Luxe, with sixteen original water-color paintings by Allan Brooks, \$350.

The output of this work in all the editions will be strictly limited to advance subscriptions.

We go to press January 1st, at which time the subscription books close.
