AVIFAUNA No. 11

A Distributional List of the Birds of California

By JOSEPH GRINNELL

217 pages and 3 maps Published October 21, 1915

An up-to-date, authoritative bird-list which should be in the hands of every active bird student in the western United States. It gives geographical ranges, with exact citations, and serves as a basis for all further distributional studies.

The Cooper Club has strained its resources to the limit to publish this latest number in its Avifauna series. The management urges quick response, so that a large sale will help meet this unusual expense. Each C. O. C. member should procure a copy at once.

Members of the C. O. C. may take the regular Club discount (50%) which applies to all Avifaunas.

Price, prepaid, \$3.00
