Last Chance to Acquire a Set of Dawson's

BIRDS OF CALIFORNIA

For Only \$9.00

In cleaning up the broken volumes and odd sets of the Birds of California we have had turned in to us 100 sets, all in the Format De Luxe. This is the edition that had 164 more pictures than the best common edition (called Booklovers') and 246 more pictures than the students' edition.

These sets are sewed but have no covers and are perfect except that each one of the volumes has a few pictures missing.

This uncovered 4 volume De Luxe set with approximately 225 extra inserted pictures we will sell for \$9.00. The 225 plates are extra full page inserts such as color plates, photogravures, and duotones; in addition to these there are over 1100 half tone cuts and 44 drawings throughout the text of 2121 pages.

Anyone can construct his own covers and glue them on these sewed volumes at very little expense so as to make beautiful volumes out of the set.

Note that the cheapest set of Birds of California in the De Luxe sold in a cheap paper binding for \$185.00 and had 261 inserted plates in all.

The present offer is a super-bargain for anyone. Ready for shipment, the set, will weigh about 35 pounds.

As well as the above mentioned volumes, there are still a few complete sets of each of the two following:

LARGE PAPER EDITION, de Luxe

Published price, \$300.00. Five copies of this set.....\$50.00

BOOKLOVERS' EDITION

Offers advantages of lighter weight and convenience in handling, which are sure to be appreciated by many purchasers. The Booklovers' Edition is bound throughout in superfinish fabrikoid, with illuminated sides, very handsome and serviceable. The illustrative equipment of this edition comprises (besides the 1145 half-tones in the text) 48 colored plates, 16 photogravures, and 32 duotones—96 full-page plates in all.
