LIFELONG BOYHOOD

Recollections of a Naturalist Afield

By LOYE MILLER

The stories of the author's early collecting trips to southern Arizona and the Cape district of Baja California, the account of the discovery and excavation of the fossil birds of Rancho La Brea, and the reprinting of several of his articles on bird behavior are features that especially commend this book to members of the Cooper Ornithological Club.

In "Lifelong Boyhood," Loye Miller, biologist and teacher, always a naturalist, tells us about the major events in his career.

Price \$2.75; 256 pages.
