### MUSIC IN NATURE

By LOYE MILLER

Four 12-inch, vinylite (non-breakable) phonograph records with over 50 bird songs and animal sounds.

This popular talk by Loye Miller is again available. Music in Nature is an informal discussion of the five elements of music—time, tone, tune, timbre, touch—in relationship to bird songs and animal sounds. These sounds are reproduced by Professor Miller's own vocal and whistled imitations. Highlights are the four calls of the California Quail, the songs and cries of the goldfinch, wolf, horned owl, tree-toad, and meadowlark, and the amazing combination of tongue flutter, whistle, and grunt used to reproduce the sound of the Sandhill Crane. Fifty of the bird songs and animal sounds are applicable in any state of the Union. This material is ideally suited for all grades of classroom instruction and is being used by many school districts throughout the country.

Loye Miller has made field studies of natural sounds for more than fifty years. As Professor of Biology in the University of California at Los Angeles, he has long been noted as a scientist and teacher and for his leadership in nature study groups and for his talks about birds and animals.

The University of California has given The Cooper Ornithological Club the right to sell Music in Nature as a contribution to ornithology.

The four discs, seven sides recorded, \$7.50 plus 3% state sales tax in California.

**PRICE LIST OF PUBLICATIONS ISSUED BY THE  
COOPER ORNITHOLOGICAL CLUB**

**January 1, 1952**

In issuing this new list we have made many changes but have endeavored to price the items as low as is consistent with our limited editions and in accordance with a recent inventory. Many of our publications are now nearly depleted and some entirely sold out. All these publications are sent post paid anywhere in the United States; for sales in California please add 3% sales tax on all items except the Condor journal.

We are continually buying in old "Club" publications and at times can supply complete files. Send us your want list.
