We recommend no. 1 through no. 4 and no. 2X for catching small birds, no. 5 through no. 8 for medium-sized birds, and no. 9 through no. 12 for large birds. Special net for ducks, large shorebirds, etc.: no. 15, 12 feet wide, 60 feet long, 4-inch mesh, \$12.50. Please include your Federal Bird Banding Permit Number when ordering nets. California orders must include 4% sales tax. If payment is sent with order we will pay the postage.—BLEITZ WILDLIFE FOUNDATION, 1001 North McCadden Place, Los Angeles 38, Calif.

UNUSUAL SERVICE—Unique in fact, is the pre-servicing we give our low-priced binoculars (\$29.50 to \$39.50) in our famous Repair Shop. We reject any with optical or structural defects, tighten loose parts, and align each to United States Government specifications. Equally unusual is our pre-servicing of our Grade A Japanese binoculars: Besides "tuning-up" the alignment to the same standard, we extend the focussing range of six models so you can focus them to as close as 8 to 12 feet! Even more unusual is our 'scope contribution: On the Bausch and Lomb Balscope, Sr., we install a threaded boss for mounting the 'scope directly on a tripod—no adapter needed—no extra cost! Also, we have the answer to every 'scope user's dream: A wide-field 20X eye-piece with 100 per cent more viewing area than the standard-field 20X eye-piece; also rotating turrets. All instruments—irrespective of price—with our FREE-SERVICE GUARANTEE and a 30 days' trial. Many more interesting details; send for free price list and complimentary copy of our "Know Your Binoculars," 12-page booklet reprinting our articles published in Audubon Magazine.—THE REICHERTS, *Mirakel Optical Co., 14 W. First St., Mount Vernon 15, N.Y.*

WANTED—Elton, Mice, Voles and Lemmings—I will pay \$20.00, or you name your price.—HENRY E. CHILDS, JR., *Cerritos Junior College, 11442 E. Alondra Blvd., Norwalk, Calif.*

WANTED—Hochbaum, Canvasback on a Prairie Marsh—Please state price and condition.—CLIFFORD V. DAVIS, *Dept. of Zoology and Entomology, Montana State College, Bozeman, Mont.*

WANTED—Preserved avian specimens, just hatched, all species, identified, maximum 12 hours old.—DAVID K. WETHERBEE, *Pomfret Center, Hampton, Conn.*

FOR SALE—The "Tiny Tucker" Hummingbird Feeder, with instructions for use, \$1.15 postpaid. All profits from sales of these efficient feeders, now equipped with a special bee guard, are used in maintaining this wildlife sanctuary.—TUCKER BIRD SANCTUARY, *Box 53, Star Route, Modjeska Canyon, Orange, Calif.*

ARRIFLEX 16—Save 20 to 30 per cent on latest model Arriflex 16 and accessories; also other new and used photographic equipment for naturalists at prices you can afford. As a nature photographer, may I advise you on how to solve your photo problems?—JOHN G. TYLER, *603 Alta Ave., Santa Monica, Calif. EXbrook 5-8876.*

HELP WANTED—Young man with good knowledge of birds is wanted for training as an assistant in color photography laboratory processes; some photographic knowledge would be helpful, but is not required. This is a permanent full-time position in Los Angeles.—DON BLEITZ, *1001 North McCadden Place, Los Angeles 38, Calif.*

FOR SALE—*Traite de Zoologie, XV, Oiseaux*; binding slightly damaged, \$12.00.—HENRY E. CHILDS, JR., *15053 Neartree St., La Mirada, Calif.*

WANTED—Pacific Coast Avifauna No. 4, Swarth, Birds of the Huachuca Mts., Arizona; Bulletin of the Cooper Ornithological Club, vol. 1, nos. 3-4; Condor, vol. 2, no. 6, and vol. 3, no. 2. Please state price.—JACK C. VON BLOEKER, JR., *Los Angeles City College, 855 N. Vermont Ave., Los Angeles 29, Calif.*

PREPARATION OF MANUSCRIPTS FOR THE CONDOR

Articles published in the Condor normally are written by members of the Cooper Ornithological Society. Practically all the Society's money goes into the journal; no editor or business manager receives any pay other than the satisfaction of doing a service worthily. The preparation of good copy by the author will contribute greatly to accuracy of published output, dispatch in handling, and economy of production.

To be acceptable for inclusion in the Condor, articles must not duplicate in any substantial way material that is published elsewhere. Any type of subject bearing on birds may be considered; but the geographic areas of primary concern are western North America, Central America, and the Pacific Basin. Manuscripts may be sent to the editors at the Museum of Vertebrate Zoology. Proofs with edited manuscripts will be sent to authors, at which time reprints may be ordered.

In the interests of accuracy and economy, observe the following: do not duplicate data in text, tables, or charts; check citations to original sources and verify text references; quoted statements must be exact replicas of the original; use vernacular names applicable to the entire avian species (for a guide in this regard, consult the A.O.U. Check-list of North American Birds, Fifth Edition, 1957; insert scientific names for species but not the subspecific name except in taxonomic papers or where the race concerned has been critically determined by the author or his collaborators on the basis of specimens; revise the manuscript repeatedly to remove superfluous words and phrases, immaterial detail, and repetitious statements.

Note Condor style and usage. "General Articles" and the "Field and Study" items are set up in different form. Provide a concise, meaningful title, and, where needed, subtitles within the text. Footnotes are not used. The address line may serve to indicate institutional connection, and to it should be added the date of transmittal of the manuscript. Terminal bibliographies are usually desirable where five or more titles are to be cited; otherwise, the references may be included in the text. For bibliographic style, note closely the practices employed in recent volumes of the journal. A factual summary is recommended for longer papers.

Rules for copy.—(1) Typewrite material, using one side of paper only; (2) double space all material and leave liberal margins; (3) use $8\frac{1}{2} \times 11$ inch paper of standard weight (avoid onion skin); (4) carbon copies are not acceptable; (5) place tables on separate pages and plan them to fit normal page width; (6) number pages in upper right hand corner.

Illustrations.—Photographs should be glossy prints of good contrast. Make line drawings with India ink; plan linework and lettering for at least $\frac{1}{2}$ reduction; do not use typewritten labels on the face of the drawing. Provide typed legends on separate sheets.

Helpful references on writing: Manual of Style, University of Chicago Press, and Rules of the Editorial Committee, University of California Press. On scientific nomenclature: Fifth Edition of the A.O.U. Check-list, The Distribution of the Birds of California (Pac. Coast Avif. No. 27), and The Distributional Check-list of the Birds of México, Parts I and II (Pac. Coast Avif. Nos. 29 and 33); authors are not required to follow the nomenclature of these works.
