WANTED—The Oologist, vol. 57, nos. 1-12 (1940), and vol. 58, nos. 1-3 (1941) will complete my set. Please state condition and price.—ROBERT A. McCABE, *Dept. Wildlife Management, Univ. Wisconsin, 424 Farm Pl., Madison 6, Wis.*

FOR SALE—Birds of the Northwest, Coues, half-morocco, \$4.00; Ecology and Management of the American Woodcock, Mendall and Aldous, wrapper, \$3.50; Guide to Bird Watching, Hickey, cloth, \$4.50; Birds of Alabama, Howell, buckram, \$8.00; Animal Communities in Temperate America, Shelford, cloth, \$7.50; Methods in the Art of Taxidermy, Davie, cloth, \$7.00; Evolution and Animal Life, Jordan and Kellogg, cloth, \$4.50; Microscopy of Drinking Water, Whipple, cloth, as new, \$8.00; Alaska Bird-life, Ingersoll, 7 colored pls., boards, as new, \$2.50; all sent postpaid.—HARTLEY H. T. JACKSON, *Rm. 61, U. S. National Museum, Washington 25, D. C.*

NEEDED—Male secretary with good knowledge of ornithology to work for Bleitz Wildlife Foundation; full-time job in the Los Angeles area. If interested, write for particulars.—DON BLEITZ, *1001 N. McCadden Pl., Los Angeles 38, Calif.*

FOR SALE—Eastern and Western Bird Guides—Peterson's Field Guide Series. Hummingbird feeders, \$1.15 by mail. Bushnell's telescopes and binoculars—the lowest priced binoculars of superior quality, 6×30, \$59.50. Profit to C.O.S.—EBON B. MCGREGOR, M.D., *1085 N. Palm Ave., Whittier, Calif.*

FOR SALE—Birds of Southern California—An Annotated Field List, by R. L. Pyle and A. Small, 1961, 64 pp. Graphs indicate seasonal status, relative abundance, and preferred habitats of more than 400 species; \$1.15 postpaid.—L. A. AUDUBON SOC., *7377 Santa Monica Blvd., Los Angeles 46, Calif.*

FOR SALE—Write for specifications and details of specimen case no. 112, designed by University of California. Size 27" × 44" × 42"—priced at \$199.00, F.O.B. Escondido, Calif.—CHAPPELL AND QUICK, *P. O. Box 1085, Escondido, Calif.*

DR. ERWIN STRESEMANN, internationally known scientist, comments as follows on Skutch's life histories of Central American birds: The delight over the first volume of this series, published in 1954, led me to predict that future generations will enroll the author of this book among the classic writers of field ornithology. The second volume, larger and richer in illustrations, is as fine as the first one. Incomparable in the carefulness and richness of his observations, in the sensitiveness of his explanations, and in the brilliance of his language, Skutch offers each student of behavior abundant material for his thinking and comparison, even if he is not familiar with the world of neotropical birds.

## LIFE HISTORIES OF CENTRAL AMERICAN BIRDS

By ALEXANDER F. SKUTCH

*Illustrated by Don R. Eckelberry*

### Part I:

This volume contains life histories of 40 species of birds of Central America belonging to the higher families of song birds—the finches, tanagers, troupials, wood warblers, and honeycreepers. The book consists of 448 pages. A group of four tanagers is shown in color and all other species are represented by line drawings. Thirty-two photographs show nests and habitats of tropical America.

Bound with paper covers . . . . . \$ 9.00 per copy  
Bound with cloth . . . . . \$10.00 per copy

### Part II:

This second, and larger volume of 593 pages, deals with vireos, thrushes, wrens, gnatcatchers, jays, swallows, and flycatchers. There are 59 species given special attention and each is beautifully illustrated by Eckelberry, who has met and sketched most of them in the field. There is a strikingly colored frontispiece showing three of the lesser known tyrant flycatchers. For each family of birds there is a summarizing chapter drawing comparisons between species and characterizing the life history patterns of the family as a whole. The volume is especially valuable for its extensive coverage of the wrens and tyrant flycatchers which are so richly represented in tropical America.

Bound in cloth . . . . . \$15.00
