Volume 69

Number 3, May-June 1967

Issued 23 June 1967

Editor: James R. King
Department of Zoology
Washington State University
Pullman, Washington

CONTENTS

- 217 Evolution in the House Sparrow. I. Intrapopulation Variation in North America
Robert K. Selander and Richard F. Johnston
- 259 Utilization of the Breeding Territory in the Black-capped Chickadee
Raymond A. Stefanski
- 268 The Responses of Incubating Ringed Turtle Doves (*Streptopelia risoria*) to Manipulated Egg Temperatures
Edwin C. Franks
- 277 Grebes from the Late Pliocene of North America
Bertram G. Murray, Jr.
- 289 Gonadal Responses of Brown-headed Cowbirds to Long Daylength
Robert B. Payne
- 298 Feeding Behavior and Food-Consumption Rates of a Captive California Murre
Richard C. Sanford and Stanley W. Harris
- 303 Seasonal and Geographic Variation in the Foods of Adult White-tailed Ptarmigan
Robert B. Weeden

SHORT COMMUNICATIONS

- 310 The Distribution of Certain Mimidae in California
Guy McCaskie, Richard Stallcup, and Paul DeBenedictis
- 311 Galápagos Finches Grooming Marine Iguanas
Dean Amadon
- 311 Additional Observations on the Status of North American White Pelicans
Daniel W. Anderson and James C. Bartonek
- 313 Bald Eagle Swimming in the Ocean with Prey
Thomas L. Danielsen
- 313 Late-Autumn and Winter Bird Records from Interior Alaska
Brina Kessel
- 316 Some Bird Records from San Diego County, California
Amadeo M. Rea
- 318 Some Supplementary Records of Birds in Baja California, México
Richard C. Banks
- 318 Black-billed Cuckoo Records in California
Willet T. Van Velzen
- 319 Two June Records of the Canada Goose in Grand Canyon, Arizona
Norman G. Messinger
- 319 Common Gallinule in Humboldt County, California
Richard J. Wheeler
- 319 Additions to the Avifauna of Panamá: the Palm Warbler and the Connecticut Warbler
David L. Hicks, Eustorgio Mendez, and Horace Loftin
- 320 Golden Plovers in the Galápagos
Jeremy J. Hatch and Jack P. Hailman
- 321 News and Notes

Age Variation in Plumage Pattern in the Male House Sparrow. Top: Adult male; middle and bottom: three first-year males showing variation in degree to which the first-year pattern approaches that of the adult male.
