

NEW BOOKS IN ORNITHOLOGY

CHRISTOPHER W. THOMPSON, BOOK REVIEW EDITOR

The following bibliography lists ornithological books published in any language in 1992 and not listed in my previous bibliography in *The Condor* (95:245-250). Most U.S. and Canadian government documents are not listed in this bibliography. My annotations enclosed in brackets are intended to clarify the content of the publications. Despite trying to make this and the previous bibliography as complete as possible, I am sure that I omitted many ornithologically significant publications. Therefore, I would be grateful if readers of *The Condor* inform me of ornithological publications (1) that I omitted so that I may include them in future bibliographies, and (2) that are published in the future, in any language, to insure that they will be cited in future bibliographies.

Unless stated otherwise, most publications listed in these bibliographies, especially those published outside of the United States may be purchased from one of the following sources: Buteo Books, Route 1, Box 242, Shipman, VA 22971, telephone (800) 722-2460 or (804) 263-8671; Flora and Fauna Books, 121 First Avenue South, Seattle, WA 98104, telephone (206) 623-4727; American Birding Association, P.O. Box 6599, Colorado Springs, CO 80934, telephone (800) 634-7736 or (719) 578-0607; Bird and Wildlife Bookshop, 2-4 Princes Arcade, Picadilly, London SW1Y 6DS, England, telephone (44) 71 287-1407; Natural History Book Service Ltd., 2-3 Wills Road, Totnes, Devon TQ9 5XN, England, telephone (44) 803 865913; St. Ann's Books, Rectory House, 26 Priory Road, Great Malvern, Worcestershire WR14 3DR, England, telephone (44) 684 562818; Andrew Isles Natural History Books, 113-115 Greville Street, Prahran 3181, Australia, telephone (61) 3-51-5750 or (61) 3-529-6850. Most United States government documents are available in government depository libraries (e.g., most state universities). Other sources of United States and Canadian government publications are listed at the end of this bibliography.

I am extremely grateful to Debbie Pressman of the U.S. Forest Service, Tom Cortese of the U.S. Fish and Wildlife Service, and Deborah Sommer of the U.S. Department of Agriculture and University of Georgia for their help in compiling this bibliography.
