

Ringed Plover	29	Greenshank	3
Little Ringed Plover	2	Knot	10
Kentish Plover	65	Little Stint	160
Turnstone	5	Dunlin	260
Curlew	1	Curlew Sandpiper	92
Whinbrel	1	Ruff	6
Common Sandpiper	12	Black-winged Stilt	6
Redshank	164	Collared Pratincole	1

During the second series of tides two Dunlin were trapped which had been ringed earlier in the autumn in Britain. Each was trapped just 13 days after ringing, one was an adult ringed in Cornwall on 17th August and one a juvenile ringed in Dorset on 21st August. These demonstrate that migration of Dunlin through Europe can be quite fast.
