

## RECENT PUBLICATIONS ON WADERS

Compiled by N. C. Davidson

Although considerable effort is spent trying to make these lists as complete as possible, coverage is inevitably somewhat dependent on the range of journals etc. which are available to the compiler. Therefore, details of omissions and, if possible, reprints of papers are always welcome. In future, these should be sent to Theunis Piersma, Hendrikstraat 21, 9724 NA Groningen, Netherlands. Thanks to all those who have sent such information, to F-U Schmidt for help with the German literature, and to M.W. Pienkowski for help. Translated titles of papers in languages other than English are bracketed: round brackets if the English translation is by the author; square brackets if by others.
