Trying to make the list as complete and up to date as possible, all help is most welcome. If you are aware of that some journals which you have access to are badly covered or not at all then please send me a line. Remember to include, if available, the address of the first author - that increases the usefulness. Also, include translations of titles if they are in other languages than English. Please send new titles, abstracts, reprints, omissions or corrections to: Gudmundur A. Gudmundsson, Department of Ecology, University of Lund, Ecology Building, S-223 62 LUND, Sweden.

For help with this issue I am grateful to Ian Bainbridge and Nicola Baccetti.

Translated titles from languages other than English are bracketed; round brackets if the translation is by the author (s), square brackets if not.
