

# RECENT PUBLICATIONS ON WADERS 61

*compiled by*  
**Henk Koffijberg**

In trying to make these lists as complete as possible, and the next one even more complete and up to date, your help is most welcome. Please send new titles, abstracts, reprints, copies, reports, and (important too!) omissions or corrections to: **Henk Koffijberg, Glenn Millerweg 102, 1311 RW Almere, The Netherlands.**

Remember to include, if possible, the address of the first author, and translations of titles if they are in other languages than English.

For help with issue I'm very grateful to D.A. Stroud, I. Bainbridge, T. Piersma, R. Maheo, D.W. Yalden, B. Calvo, B.-O. Flore, R. Valle, and T. Székely

Translated titles from languages other than English are bracketed; with round brackets if the translation is by the author(s), square brackets if not.

N.B. a copy of your paper or abstract would be very helpful to enable me to add some keywords or give added annotation to the titles.

So far, about 3,000 titles have been stored in an automated database.
