

Recent Publications on waders

compiled by
Henk Koffijberg

In trying to make these lists really as complete as possible, and the next one even more complete and up to date, your help is necessary!!

Please send new titles, abstracts, reprints, copies, reports, and (important too!) omissions or corrections to: Henk Koffijberg, Glenn Millerweg 102, 1311 RW Almere, The Netherlands, e-mail: koffijberg@wanadoo.nl

Remember to include, if possible, the address of the first author, and translations of titles if they are in languages other than English.

For help with this issue I'm very grateful to V.V. Morozov, W. Meissner, P.M. Sagar, R. Lanctot, F.-U. Schmidt, T. Piersma, K.-M. Exo, B. Trolliet, P. Triplet, and H.P. Sitters.

Translated titles from languages other than English are bracketed; with round brackets if the translation is by the author(s), square brackets if not.

N.B. a copy of your paper or abstract would be very helpful to enable me to add some keywords or give added annotation to the titles.
