MENTION BIRD-BANDING

### W. B. B. A. GOVERNMENT SPARROW TRAP

The advantages of the Government Sparrow Trap are many. It is always set, and when birds come in flocks will trap them to the limit of its capacity.

Our trap is strongly made of hardware cloth, with a bottom of the same material to the inner chamber, so that birds are perfectly safe from the attacks of hawks, cats and other predatory animals.

The dimensions are 10" x 14" x 28"; the low height makes it difficult for birds to injure themselves by flying up from the bottom of the trap and striking their heads against the top.

In the United States, west of the Mississippi River—\$4.50 postpaid  
East of the River and in Canada—\$5.00 postpaid

### W. B. B. A. TWO-COMPARTMENT TRAP

This trap, measuring 7½" x 8" x 10" is divided into two compartments, each provided with a drop door and automatic treadle. Adjustable feet are attached so that the trap will rest firmly on any approximately plane surface. The trap is very strong, being welded throughout, and is painted with a good green enamel.

In the United States, west of the Mississippi River—\$1.50 postpaid

East of the River and in Canada—\$1.75 postpaid

With wire bottom, as trap and gathering cage, add \$0.25

### W. B. B. A. WARBLER (Water) TRAP—TOP OPENING

Like our two-compartment trap, it is made of vertical wires, is strong, and is painted green.

In the United States, west of the Mississippi River—\$3.00 postpaid

East of the River and in Canada—\$3.25 postpaid
